

Proximity Vortex

1. Toss lower value food out, possibly towards a distraction.
2. When the dog orientates back to you, mark "YES" and deliver high value food close to your body. Think treat party and amazing reward experience.
3. Repeat!

You can replace your marker word (YES) with the dog's name. Do this only if you are 95% sure that they will bounce back to you immediately.

Level Up:

Play Proximity Vortex with Meet & Greet. You will need a willing human collaborator for this game.

1. Toss a low value treat toward a willing collaborator (human).
2. Call the dog to you if they approach the human. Have a party (with high value treats).
3. As the dog has repeated successes with the treat tossed many feet from the human, start tossing the treat closer to the human.
