SSPC QP-5 Certified Coating Inspection Company

FeO is one of only 14 companies worldwide to achieve the QP-5 Certification, the highest standard for a coatings and lining inspection firm. Rated A+ by the Better Business Bureau, we are your trusted partners in the fight against corrosion.

NACE/SSPC Coating Inspections

Our NACE & SSPC certified coating inspectors are highly proficient professionals, individually selected for your project. With a global presence and extensive experience in multiple sectors, FeO provides truly world-class inspection services.

Coating Condition Surveys

Our SSPC-certified Protective Coating Specialists (PCS) are experts in providing high-quality surveys of your coating systems. In addition, we provide a recommended action plan to maximize the life of your coating system.

Coatings Failure Analysis & Consulting

Using our team of paint experts, professional engineers and certified labs, FeO will accurately identify the source of your coatings failure, while providing a tailored solution to getting your coatings project back on track.

Blaster/Painter/Inspector Training Services

Our highly experienced cadre are experts in training your staff in both entry and advanced techniques in corrosion control. Our #1 goal is producing a self-sustaining team that can effectively manage your corrosion control challenges.
