LOCAL MARKETS, NATIONAL REACH

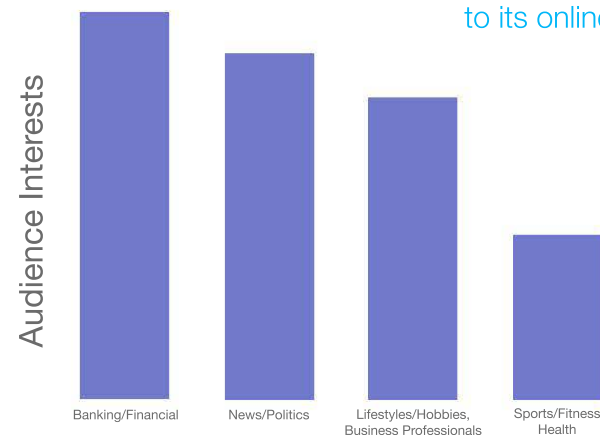

The information herein is accurate to the extent it is provided to BizTalkRadio affiliates or their representatives.

The primary listener of BizTalkRadio is male, 35 to 70 years old, with expendable income. These individuals are most likely entrepreneurs who like to manage their own money. They are technologically advanced and looking for investment ideas and business opportunities. This is a group that is constantly looking for sound advice on how to use their money to make money, with investment opportunities that they can exert a level of control over. This group also needs services to maintain their investments and properties.

BizTalkRadio attracts an average of **500** visitors to its online platforms each month

20MM Potential Listener Audience

Why Radio?

- There is an estimated \$18.2 billion in revenue generated annually in the U.S. through radio broadcasting.
- AM/FM radio reaches over 85% of the U.S. population.
- Over \$15 billion is spent annually on radio advertising in the U.S. with over \$35 billion being spent on radio advertising globally.
- Radio offers diversity, a targeted demographic and is a cost effective means of delivering your message to the masses.
