

Schluter Shower System Planning Kit

What Is the Schluter Shower System?

- A Schluter Shower System is a fully integrated waterproofing system for tiled showers.
- Includes membranes, pre-sloped trays, drains, and accessories that create a watertight envelope.
- Engineered to prevent mold, mildew, and structural damage caused by moisture.

What's Included in the System?

- KERDI Waterproofing Membrane
- KERDI-BOARD Tile-Ready Panels
- KERDI-SHOWER-T Prefabricated Trays
- KERDI-DRAIN or KERDI-LINE
- KERDI-BAND Sealing Tapes & Corners

Planning Steps for Your Remodel

- Measure your shower space: note dimensions and drain location.
- Choose your preferred drain type: center drain or linear.
- Select Schluter components based on layout and tile type.
- Ensure subfloor is level and walls are square before installing.
- Decide whether to DIY or hire a certified Schluter installer.

Quick Remodeling Checklist

- Measure space and decide on layout
- Select compatible Schluter components
- Purchase membrane, tray, drain, and sealing accessories
- Watch installation tutorial or hire a professional
- Register your product for warranty coverage

FAQs for First-Time Users

- Can I install it myself? Yes, with proper tools and care.
- Is it more expensive? Slightly up front, but more durable and cost-effective long-term.
- Does it work on concrete or wood? Yes, with correct bonding techniques.
- Is there a warranty? Yes - up to lifetime warranty when installed properly.
