

Reflection on School Culture

INSTRUCTIONS

Please record a 5 minute video of you answering the following question:

"Given that the pursuit of truth, the quest for goodness, and the encounter with beauty are central concerns of a Chesterton Academy, how do those ideals manifest in the practices and activities of a school? Describe a few distinguishing characteristics of such a school from various vantages (student life, parental involvement, classroom pedagogies, collegiality of faculty, board oversight, administrative structure)."

While recognizing that this is a theoretical exercise, we welcome anecdotes from your experience and elaboration on your own understanding of the classical, liberal arts approach to education.

You may use any platform to record your video. Be sure the permission settings are public to allow our team to access your recording. While not require, we highly recommend submitting a video to ensure your application is a priority status.
