Please be aware of the current EHV-1 (herpesvirus) outbreak in Florida. On March 2nd, Florida Officials confirmed a positive herpesvirus case and on March 4th a second horse tested positive. Herpesvirus is highly contagious among horses and is commonly spread through nose to nose or close contact. Symptoms include fever, neurological signs and lethargy. Possible travel restrictions may be in place, contact any facility prior to transport. If you have any questions please refer to the article attached or give our office a call, 843-694-1450.
