

Thank you for your inquiry about my self-paced video courses. Here is additional information to assist you in learning more, should you decide to enroll in either one or both courses, “Essential Standards: Pathway to Success for All Students”, and “Clarity for All: Student Learning Targets & Aligned Success Criteria”

Since you have visited my website, www.larryainsworth.com, and read the descriptions for each of the lessons in both courses, <https://www.larryainsworth.com/self-paced-video-courses>, the next steps to enroll are as follows:

1. Both courses include MP4 videos of me presenting each of the lessons, related chapter excerpts from my book, *Integrating Teaching and Learning: “Timeless Essentials” for Creating Integrated Units of Study*, and a short assignment for you to reflect on the information you learned. You do not need to submit your assignment responses to me; they are for your study only.
2. Email me at larry@larryainsworth.com to let me know which course(s) you are interested in. I’ll send you a general confidentiality and non-disclosure agreement for you to sign, scan, and then return to me, stating that you will not distribute the course materials to others. You may invite others to view and take part in the course with you, but the actual materials are entrusted solely to you.
3. The cost for each course is \$100 U.S. and can be paid directly to my Venmo account: @-LarryAinsworth-3. As soon as payment is received, I will send you the links to the course, a separate link for each of the two modules in the course that includes the documents described above.
4. The timeframe for completing the course is three months. At the end of that period, I would appreciate receiving your feedback about the experience. I will send you a signed certificate of completion, if requested. It will not count for academic credit but will provide you with verification that you may use as professional training.
5. If any of your colleagues are interested in enrolling in either course, please ask them to contact me directly to follow the same process described here.
6. If you are thinking about enrolling for the Essential Standards course, I thought you might like to see this short video I created to introduce it. The two videos next to it are one-hour recorded sessions about Student Learning Targets and Success Criteria that I presented at a virtual conference in May of this year. Here’s the link that also appears on my website under Media for all three videos:
