

THE POWER OF SDC

Our patented **Silver Dihydrogen Citrate** molecule has revolutionized food safety because it is one of the most powerful antimicrobials in the industry. The electrolytically generated antimicrobial provides an environmentally responsible solution to food safety challenges, in food preparation, processing and foodservice operations.

SDC quickly eliminates a broad spectrum of bacteria, fungi and viruses

Destroys germs by attacking their protective membrane

Appears as food to microbes, destroying their metabolism and stopping reproduction

SDC products are odorless and non-irritating

Food safety is a critical, global concern.

PURE Bioscience understands the growing need for new solutions to help the food industry achieve their food safety goals. PURE Bioscience offers a line of products incorporating our proprietary **Silver Dihydrogen Citrate (SDC)** technology - **The PURE[®] Complete Food Safety Solutions:**

- **PURE[®] Hard Surface**, our EPA registered food contact surface sanitizer and disinfectant, rapidly eliminates a wide range of food borne pathogens, including *Salmonella*, *Listeria*, *Campylobacter*, *E. coli*, *Norovirus* and many others.
- **PURE Control[®]** was approved by the US FDA for use in poultry processing (FCN 1768) and produce processing (FCN 1600). Utilizing the superior efficacy and safety of SDC, PURE Control eliminates pathogens including *Salmonella*, *E. coli*, *Campylobacter* and *Listeria*.
- **PURE[®] Multi-Purpose and Floor Cleaner** and **PURE[®] Multi-Purpose Hi-Foam Cleaner** offer versatile cleaning solutions and are ideal for cleaning facilities and equipment.
