

A NEW GENERATION
OF PROTECTION

pure
HARD SURFACE

**COMMERCIAL LINE
DISINFECTANT**

**Odorless, Ready to Use Formula for use in
Healthcare | Schools | Food Service & Processing | Hospitality**

KILLS SARS CoV-2 IN 30 SECONDS† ON HARD NON-POROUS SURFACES.

EFFECTIVE AGAINST NOROVIRUS.

KILLS 99.999% OF BACTERIA THAT CAN CAUSE FOOD BORNE ILLNESS.**

ACTIVE INGREDIENTS

SILVER DIHYDROGEN CITRATE† 0.003%
CITRIC ACID 4.846%

†Electrolytically generated silver ions stabilized in citric acid as silver dihydrogen citrate

DIN: 02368803

CAUTION

Avoid inhalation of aerosols of PURE Hard Surface, as it could cause respiratory irritation and discomfort, which may result in cough, sneezing and/or wheezing.

**KEEP OUT OF
REACH OF CHILDREN**

READ THE LABEL BEFORE USING

KILLS GERMS IN 30 SECONDS†

DIRECTIONS FOR USE:

This product is a colorless, odorless, broad spectrum antimicrobial sanitizer, disinfectant and deodorizer. Proven to kill bacteria, fungus and viruses*, this product can be used on hard non-porous environmental surfaces in hospitals, restaurants, food processing facilities, food storage and prep areas, supermarkets, kitchens, dining halls, offices, hotels, schools, recreational facilities, gyms, prisons and military installations. This product has been formulated to treat hard, non-porous environmental surfaces (painted, glazed tile, plastic, non-porous vinyl, metal, glass) and objects including counters, tables, desks, doorknobs, handrails, kitchen surfaces, food processing and cooking equipment, food cases, sinks, ice machines and non-porous athletic mats.

For surfaces/objects that may come into direct contact with food and/or children at the mouthing stage of development, a rinse with potable water is recommended.

PRECAUTIONS:

CAUTION: MAY IRRITATE EYES. SLIGHTLY IRRITATING TO SKIN
KEEP OUT OF REACH OF CHILDREN. Do not get in eyes. Avoid contamination of food. Wash thoroughly with soap and water after handling.

FIRST AID:

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

If swallowed: Call a poison control center of doctor immediately for treatment advice. Have a person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

If inhaled: Move person to fresh air. If person is not breathing, call 911 then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice. Have the product container or label and Drug Notification Number (DIN) with you when calling a poison control center or doctor, or going for treatment.

GENERAL INFORMATION: This product successfully killed the following organisms:

ORGANISM	KILL TIME
†*Adenovirus Type 2 †*Avian Influenza A †*HIV type 1 †*Human Coronavirus †*Influenza A (H1N1) †*Influenza A † Pseudomonas aeruginosa †*Respiratory Syncytial Virus †*Rotavirus † Salmonella enterica †*SARS CoV-2 (the virus that causes COVID-19) †*Swine Influenza A (H1N1)	30 SECONDS
*Hepatitis B Virus (HBV) *Hepatitis C Virus (HCV) *Herpes Simplex Type 1 *Murine Norovirus •*Feline Calicivirus as surrogate for Norovirus *Polio Type 2 *Rhinovirus	60 SECONDS
Acinetobacter baumannii Campylobacter jejuni Carbapenem resistant Escherichia coli Carbapenem resistant Klebsiella pneumoniae Carbapenem resistant Klebsiella pneumoniae, NDM-1 + Community Associated Methicillin resistant Staphylococcus aureus (CA-MRSA) Community Associated Methicillin resistant Staphylococcus aureus (CA-MRSA-PVL) Escherichia coli O157:H7 Listeria monocytogenes Methicillin resistant Staphylococcus aureus (MRSA) Staphylococcus aureus Vancomycin resistant Enterococcus faecium (VRE)	2 MINUTES
Trichophyton mentagrophytes (Athlete's Foot Fungus)	5 MINUTES

APPLICATION INSTRUCTIONS: Pre-clean surfaces prior to using this product.

GENERAL DISINFECTION: To kill bacteria, apply this product to the surface until visibly wet for 2 minutes. The surface may then be wiped dry with a clean towel. When used as directed, this product provides residual protection from *Pseudomonas aeruginosa*, *Staphylococcus aureus* and *Salmonella enterica* up to 24 hours after initial application. Do not touch treated surface after application if residual protection is to be maintained.

FUNGUS CONTROL: To kill fungus, apply this product to the surface until visibly wet for 5 minutes. The surface may then be wiped dry with a clean towel. Re-apply when cleaning or when new growth appears.

***VIRAL CONTROL:** To kill viruses, apply this product to the surface until visibly wet for 1 minute. The surface may then be wiped dry with a clean towel.

Kills HIV-1, HBV and HCV on pre-cleaned environmental surfaces/objects previously soiled with blood/body fluids in health care settings (or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of HIV, HBV or HCV): **Instructions for Cleaning and Decontamination Against HIV, HBV and HCV on pre-cleaned environmental surfaces/objects** previously soiled with blood/body fluids: Personal Protection: When handling items soiled with blood or body fluids, use appropriate barrier protection such as latex gloves, gowns, masks and eye coverings. **Cleaning Procedure:** Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of this disinfectant. **Contact Time:** Apply to area to be treated. Allow the surface to remain visibly wet for 30 seconds to kill HIV-1. Use 1 minute for HBV and HCV. The surface may then be wiped dry with a clean towel. These contact times will not control all organisms listed on this label. Refer to application instructions for other organisms. **Disposal of Infectious Materials:** Blood and other body fluids should be autoclaved and disposed of according to federal, state and local regulations for infectious waste disposal.

SANITIZATION OF FOOD CONTACT SURFACES: Do not use this product on utensils, dishes or glassware. Prior to use in meat and poultry plants and dairies, food products and packaging materials must be removed from the room or carefully protected. Apply product to pre-cleaned hard surfaces by thoroughly wetting surfaces with a cloth, mop, sponge, sprayer or by immersion. Surfaces must remain visibly wet for 1 minute followed by adequate draining and air drying. **This product is a ready to use sanitizer that eliminates 99.999% of the following bacteria in 60 seconds: *Escherichia coli*, *Staphylococcus aureus*.

This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream, or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.

STORAGE: Do not contaminate water, food or feed by storage or disposal. Store in a dry place no lower than 10°C or higher than 30°C. Protect from light.

DISPOSAL: Rinse the emptied container thoroughly. Make the empty container unsuitable for further use. Dispose of the container in accordance with provincial requirements. For information on the disposal of unused, unwanted product and the cleanup of spills, contact the Manufacturer or Provincial/Territorial or Local/Municipal Authorities.
