

Changing merchant service providers. Your merchant services are provided through BrewPOS or a Registered BrewPos service agent.

If you would like to move to a non BrewPos service provider there are changes to your plan and the service you can receive from BrewPos.

Changes to your BrewPos subscription costs are as follows

- Service per station costs are \$99 a month.
- Each card reader has \$29 a month gateway fee.

Changes to your level of service.

- Your new merchant service provider will be responsible for providing and installing new card readers, we recommend the pax q30.
- Your new service provider will warranty repair and troubleshoot terminal issues.
- Calls regarding any transactions from completed closeouts will need to be made to your credit card service provider.
- If onsite support is required for the payment device your new merchant service provider will be responsible.

Required by your merchant service provider

- Your new merchant service provider will need to provide a SN for each device.
- Your new merchant service provider will need to provide a Tsys stage file for each device.
- Your provider will need to schedule an install time during the closed hours of the business to install and test the devices.
