

# BrewPOS Admin Installation

---

- Go To BrewPOS.Com

- Click on  
How To  
Tab

- Search for Admin  
Install

## SEARCH RESULTS FOR 'ADMIN INSTALL'

ADMIN INSTALL

- Follow the  
instructions

### Installing Admin on your remote computer

If you have a previous version of admin installed you will need to remove it

If this is the first installation of BrewPOS ADMIN skip to step 2.

#### Step 1 Uninstall the old BrewPOS Admin installation

Go to Control Panel->Programs->Programs and Features. Highlight the entry for BrewPOS Admin in the list, then click on the Uninstall button on the toolbar. Select 'Remove' option and follow the prompts to finish uninstalling.

#### Step 2 Install the new BrewPOS Admin

Simply follow this link to our [Set-Up page](#) and click on Install

### BrewPOS Admin Installation

Go to <https://brewpos.blob.core.windows.net/bpshell/setupadm.htm> and click the Install button:

Contact Support at 800 676-9874 if you need assistance.

Runs on Windows 7 or higher (does not run on a Mac or Windows XP)
