Welcome To The  
Next Dimension  
**THE R360 SHAFT**

Cuetec's (patent pending) R360 15-1/2" pro tapered shaft construction and performance features:

1. The R360 is constructed with a tubular composite core surrounded by four computer cut "A Plus" grade Canadian maple sections to ensure an exact fit.
2. The R360 construction provides maximum radial consistency ensuring the most accurate cue ball response and control.
3. The composite core inside the shaft controls deflection, squirt, distortion and prevents warpage.
4. The 15-1/2" Pro Taper provides a long comfortable stroke.
5. The first ten centimeters of the shaft has a clear coat protection to keep it from absorbing dirt and chalk when being assembled and taken apart.

## Shane Van Boening

Nicknamed The South Dakota Kid, Shane started playing pool when he was just 2 years old. Pool was in his blood, both Shane's grandparents, his aunt, and mother played on the national amateur circuit. At the age of 9 Shane was playing in amateur tournaments against adults.

In 2003 at the age of 20, Shane decided he wanted to make pool his career and started playing in amateur tournaments around the country. He won the VNEA's in 2004 and 2005. After this early success he started playing in professional tournaments in 2007.

Ranked in the top 10 for the last 4 years Shane has developed into one of the best players in the world. In less than 4 years as a pro Shane has won more than a dozen professional tournaments.

Shane won the U.S. Open Championship in 2007, his first year on the pro tour.

- Mosconi Cup member for Team USA in 2007, 2008, and 2009
- Player of the year 2007
- World's top ranked player 2007

Shane now plays with a Cuetec R360 Cue #13-690

## CUE CARE

Care for and maintain this shaft in the same way you would treat any top quality maple wood shaft.

## INLAY series

Tiger Everest 10 Layer Laminated Pigskin Tip, **MSRP \$14.95**, has been developed to hold chalk better, providing the ultimate cue ball control and consistency.

The ferrules on the R360 cues are made of the highest quality ABS material for the ultimate transfer of energy from shaft to the cue tip while helping to control vibration and cue ball deflection.

Polished stainless steel joint with matching butt cap.

Assorted grip types to suite any players preference.

The cues are exquisitely designed with computer cut veneer inlays of exotic hard woods and Abalone shell.

Cuetec's Acueweight system (pat. pending) allows for a quick and easy weight adjustment and cue balance, 1/2 or 1 oz. weights are available allowing you to adjust the cue to your exact weight preference.

## EDGE series

The R360 Edge series cues have all of the features of the inlay series with Cuetec's more traditional decal, stained or painted butts.

## Allison Fisher series

Allison Fisher is universally regarded as the most accomplished billiards player in history. Allison won her first world championship at age 17, and has amassed more world, national, and professional titles than any other sports star – male or female.

Today Allison dominates women's cue sports. She won 80 national and 11 world titles. She became a household name in Great Britain before moving to Charlotte, North Carolina, in 1995.

Since immigrating to the United States, Allison has added 50 Women's Professional Billiard Association (WPBA) "Classic Tour" titles and an unprecedented 19 international championships to her record. Allison's achievements are unmatched in any sport.

- More tournament wins than the combined totals of all her competitors, and nearly three times the titles won by the second ranked player.
- The world's top-ranked player for 11 of the past 12 years in the WPBA, and for the preceding 10 years while residing in England.
- The only female player to win the Tournament of Champions 5 times.
- The only woman to win the World Championship four times.
- The only woman to win the U.S. Open Championship four times (Allison is currently the reigning U.S. Open Champion and has retained that title for three consecutive years).
- More "Player of Year" titles than any other sports star.

Allison now plays with an 18 oz. Cuetec R360 cue. #13-672.

13-683 WCT Jump/Break

## WCT Break Cue

- The fore-shaft is made of the finest hand selected Canadian Maple then dried and seasoned under vacuum conditions insuring an extremely straight high performance shaft
- The combination of our Bakelite ferrule and Tiger's hard tip dramatically increases your breaking power
- The shaft back-up is Canadian maple that is compressed and then bonded with hi-tech material increasing the strength of the fore-shaft which allows you to generate more power with your stroke.
- The carbon connector rod increases the energy transfer from the shaft back-up to the fore-shaft
- The forearm is compressed hard rock maple that is bonded with hi-tech material forming a rock solid butt allowing you to generate greater breaking power

## Jump Break and Graphite Cues

- Tiger Hard Tip
- Polycarbonate ferrule
- Cuetec's exclusive 15-1/2" pro-tapered power-bonded graphite or fiberglass S.S.T. shafts bonded fiberglass S.S.T. shafts
- High-Impact black implex or polished stainless steel with matching butt cap
- Veltex or Irish linen grips
- Cuetec's exclusive Acueweight system allows you to change weight or balance of the cue in just minutes

Cuetec's line of Graphite and Jump/Break cues are considered by many to be the best in the industry. They should be part of every tournament player's equipment.

## Cuetec's Meteor Break Cue

"The Cuetec Meteor break cue provides the ultimate transfer of energy resulting in a powerful break every time. Constructed for the perfect balance between control and power.

- Meteor 5 layer cowhide tip
- Maple shaft & butt Power Bonded with high tech composite material

# Cuetec

## PROFESSIONAL series

- Deluxe Leather tip
- 15 1/2" Pro Tapered Power Bonded Shafts
- Stainless Steel Power-Collars
- Tru-Glide Finish

## RECREATIONAL series

- The Recreational Series has all the features of the Professional Series with painted fiberglass shafts.

## CUETEC'S TWO BUTT SKY JUMP CUE

Perfect your jump shot with Cuetec's Sky Jump Cue. The cue comes with two butt sections. The lighter butt provides the spin needed for short distance jumps and the heavier butt provides the power needed for long distance jump shots without sacrificing any cue ball control.

- Phenolic tip
- Full-length 28" graphite clad shaft
- Quick release joint

## SPECIALTY series

- Cuetec Jump cues feature tips specially shaped for better jumps and Stainless Steel ferrules

## CUETEC'S 3 piece Bullet Jump Cue

with extension #13-684

This lightweight Cuetec Bullet Jump Cue is great for a short distance jump shot. Screw on the extension for longer distance jump shots.

- 13.5mm Phenolic tip
- No ferrule
- 28" shaft - made of high grade Carbon Fiber
- 13" handle - made of high grade Carbon Fiber
- 6" extension - made of hard wood
