

HealthTrackRx **THE NEW 99%**

We are the premier infectious disease laboratory with one mission: delivering fast, accurate and actionable results.

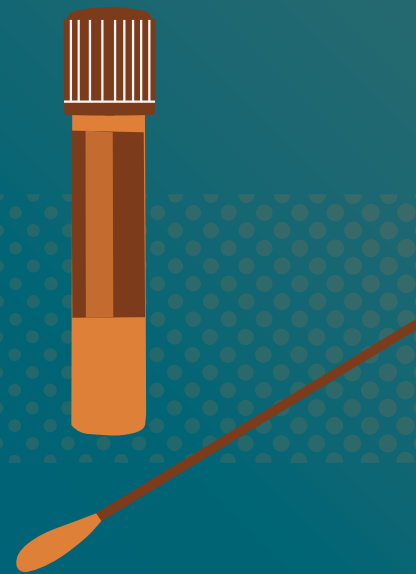

ONE SWAB TO TEST IT ALL – INTRODUCING SimpliSWAB

We offer the industry's only universal collection device. The simplest system imaginable, requiring just one vial and one swab, regardless of the pathogen. It couldn't be easier.

TRANSPORT AND HANDLING MADE EASY

Our proprietary molecular transport medium deactivates pathogens upon contact.

- Safer for office staff, transport staff, and our lab personnel
- Hyper-stable, eliminating the need for refrigeration or cold packs
- Inactivates the pathogens for safer, easier processing

THE NEW >99%

ACCELERATED INFORMATION AT YOUR FINGERTIPS

- We deliver results with unrivaled speed – reports are consistently **delivered within 24-36 hours of sample receipt.**
- Place an electronic order in under 90 seconds. Our electronic process eliminates errors and exceptions.
- Our client web portal is safe, secure, and simple to use.

WE DO THE WORK FOR YOU

- Certified scientists in our College of American Pathology (CAP) accredited laboratory review and sign off on every report.
- Our test is able to detect each individual pathogen, regardless of how many are present.
- Quick turnaround can avoid harmful delays for your patients. We ensure fast results with the most accurate information possible.

SOLUTION FOR ANTIBIOTIC STEWARDSHIP

- Every report is accompanied by patient-specific antibiogram
- Guidance helps reduce unnecessary drug exposure, adverse events, cost of repeat testing, and multiple treatment attempts
- We help you avoid the over-utilization of broad-spectrum anti-infectives

REAL-TIME PCR TECHNOLOGY MADE EASY

- We detect and differentiate 98-99% of the most common viral, bacterial, and fungal pathogens in addition to polymicrobial infections
- We offer the latest PCR technology available. Our industry-leading sensitivity and specificity reduce both false negatives and false positives
- Our technology is advanced, safe, and easy to deploy.
 - SimpliSwab – One swab to test it all. Just one vial and one swab, regardless of the pathogen target.
 - Shipping and handling made easy with our proprietary molecular transport medium. No refrigeration necessary.
 - We deliver clinically actionable data in clear, easy-to-read reports.

DEDICATED TO AFFORDABILITY

- As one of the industry's most affordable PCR laboratories we are dedicated to affordability and in-network with most major payers.
- We eliminate the need for repeat testing to save you time and money. Our affordable PCR tests are more efficient and less expensive than traditional repeat culture.
- We value the clinicians we serve and form long-term relationships with our medical professionals. Our patient-centric billing team is here to meet the needs of your patient community.

THE NEW 99%

- ▶ Over 99% of results are reported within 24-36 hours of sample receipt
- ▶ Over 99% sensitivity so you can prescribe the right antibiotic every time
- ▶ Over 99% specificity to reduce false positives
- ▶ Over 99% of the most common pathogens detected
- ▶ 100% trackable samples and results
