

It's not your average flu season. This year clinicians must answer one critical question:

# Is it the flu, a bacterial infection, or COVID-19?

Let HealthTrackRx keep your patients safe and informed during the flu season.

Rapid Flu Diagnostic Test (RIDT) and point of care testing (POCT) diagnostics are no longer sufficient. Raise the bar with **PCR** and get the answers you need this flu season.

**HealthTrackRx** is the nation's premiere infectious disease laboratory with one mission: delivering **fast, accurate, and actionable results** within **24-36 hours** of sample receipt.

With over **99% accuracy, sensitivity, and specificity** our flu season respiratory menu provides definitive PCR diagnostics for:

- COVID-19 Coronavirus (SARS-CoV-2)
- Influenza A/B Species
- Viral and Bacterial Coinfections

But did you know . . .

**Up to 50% of viral positive patients have a bacterial coinfection<sup>1</sup>**

**Up to 70% of patient deaths post flu is from pneumonia coinfection<sup>2</sup>**

HealthTrackRx also offers testing for these common infections.

**Fast and Accurate results when you need them most.**
