

# PREMIUM HOSES

**HOW CAN WE  
HELP YOU?**

## **BUILT-IN END FLOWLINE HOSE**

Suitable for transfer or injection of hydrocarbons, produced water, and sour fluids. Internally armored for gas service to prevent collapse during depressurization.

## **HIGH PRESSURE BUILT-IN END WELL TEST/FLOWBACK HOSE**

The hose structure is designed to meet the high-temperature and high-pressure acid fluid transportation and operating conditions during well testing and flowback. Internally armored for gas service to prevent collapse during depressurization.

## **HIGH PRESSURE BUILT-IN END SWD/INJECTION HOSE**

Suitable for transfer and injection of produced water and customary injection well and injection line chemical treatment methods.
