

THE BARN AUDIO/VIDEO INFORMATION

What is included in my rental fee?

- Your rental fee includes the use of an in-house mic and sound system. You can connect your device to our home sound system by an aux cord (please bring an adapter if needed). Just keep in mind that the sound is pre-set for our system and only controlled by your device. The volume may not be loud enough for dancing, so we highly recommend having a DJ for your event to create the dance environment you are looking for.

Is there a video package available?

- For an extra charge of \$75 (plus tax), you can have access to our in-home video system. There are three screens on the main level, one in the loft, and one in the walk-out basement. You can create a slide show and connect it to our system to play on all five screens. Your device connects to our system via HDMI. Please make sure your device has an HDMI port or the adapter needed. We highly recommend bringing your device to your final walk through to do a test and make sure everything connects prior to your event day.

Who controls your sound system and video system?

- Your Barn staff coordinator will make sure the sound system with mic is available and turned once you arrive, as well as the video screens if arrangements have been made. The Barn Staff Coordinator does not run your video or music for your event. We ask you to make prior arrangements with your day-of coordinator or a friend or family member to be in charge.

Does The Barn have WiFi?

- Yes, The Barn does have WiFi access. You will see the name and password on the sign by the bar area for you, guests, and/or DJ to access during your event.

Are there any sound/volume restrictions for my event?

- Jefferson County Noise Ordinance requires that all music ends no later than 10pm. You and your DJ must be in compliance with this ordinance for your timeline to be approved by a Barn Staff Coordinator.

What if we want to keep the party going past 10pm?

- We get it! This is a day to celebrate. Unfortunately, we cannot continue the party at The Barn. Music must end and guests must leave no later than 10pm. Please talk with a Barn Staff Coordinator for local after party places that would be happy to let you keep celebrating your day!
