

Analysis for:
Mr. Preferred Client \& Mrs. Preferred Client
Prepared on October 2, 2020

Presented by:
Todd E. Hoins, LUTCF \& Teresa Roessler

## Client Information

Mr. Preferred Client

DOB: 7/21/1960
Current Age: 60
Assumed Effective Tax Rate: 20.00\%
Color Of Money Goal Score: 69

Mrs. Preferred Client
DOB: 11/20/1959
Current Age: 60

## Retirement Compass Account Summary

Current Accounts

Proposed Accounts

## Green Money (Safer Assets)

These assets are designed to provide principal protection and provide an opportunity for conservative returns. Your growth potential is less than Red or Yellow Money. Examples of Green Money may include government bonds, CDs, fixed and indexed annuities.

## Yellow (Managed Assets)

These assets are professionally managed for a specific purpose. Yellow money can be managed toward your individual investment objectives and risk tolerance such as: growth, income, or principal preservation. The growth potential is greater than Green Money but Yellow Money is subject to market risk and potential loss of principal.

Red (Unmanaged Assets)
Red Money assets carry varying levels of risk and are generally not being managed for a specific purpose. Red Money may be subject to market fluctuation and the potential loss of principal. There is an opportunity for growth with Red assets but you need to make sure you are prepared to proceed with caution. Examples of Red Money may include: company stock, REITs, and Variable Annuities.

## Current Asset Allocation Summary

| Account \# | Owner | Account Name | Product Type | Tax Type | Value |
| :---: | :--- | :--- | :--- | :--- | ---: |
| 1 | Joint | Savings | Bank Accounts | Non-Qualified | \$20,000 |

While taking income, the sequence of returns has significant impact!

## Will your retirement income be subject to the Sequence of Returns?

 initial account balance of $\$ 1,000,000$, annual withdrawals of $\$ 50,000$ taken mid-year and adjusted annually by $3 \%$ for inflation, and the rate of return as noted. The figures presented above are based on the S\&P 500 TR index 20 -year history. This chart assumes an annual rebalance of the account.

# RETIREMENT COMPASS REPORT 

## Important Disclosures Regarding this Report

This report is conceptual in nature and all interest rates and performance numbers used are hypothetical and do not guarantee performance. Past performance is no guarantee of future performance. Diversification and asset allocation does not assure or guarantee better performance and cannot eliminate the risk of loss.

The report is designed to illustrate concepts and all specific product information must be presented with an appropriate company/custodian illustration and should accompany this report. It is important to review and understand each product/investment's features, risks, charges, withdrawal penalties and expenses before making any financial decisions. Consult your Financial Services Professional ("FSP") to determine which products/investments align with your time horizon, risk tolerance and overall financial needs. The FSP is an independent insurance agent, registered representative or investment advisor representative. This report is for informational purposes only and should not be used as a substitute for official account statements or reports, official tax filing documents, insurance company illustration or custodial reports.

This report outlines different options available to the client, and its timely implementation may be critical to achieving specific goals or objectives. This report is not entirely comprehensive. It is intended to address specific objectives, as outlined by the FSP.

The foregoing conceptual report was created for, and at the direction, of the FSP. The FSP is solely responsible for proper licensure and registration to discuss and present the concepts herein. The recommendations and information herein are provided solely and exclusively by the FSP.

The report is based solely upon information obtained from the FSP, and is dependent on complete and accurate information. This report reflects information provided at the time the report was created. The FSP is responsible for submitting third-party documentation when appropriate.
It is the responsibility of the client and FSP to verify all information used in the report. The client is responsible for updating the FSP about any changes in circumstances.

## Tax Considerations

Any references to income taxes are estimates only and should not be relied upon when completing income tax returns. Tax laws are subject to change and may differ from this analysis and may affect the options and information presented. The sale of appreciated assets may result in current tax liabilities not reflected in this report and may reduce actual investable assets. All income tax calculations are assumed based on the incremental tax rate input. This rate could differ materially given your particular tax perspective. State income taxes are not included in this example. Beginning with age $701 / 2$ or age 72 , depending on your date of birth, you are required by law to withdraw a certain minimum amount from your IRA each year. After your death your beneficiaries are also required to withdraw a minimum amount from their inherited IRA. The report may not reflect your specific RMD schedule or tax situation. Withdrawals of earnings from certain tax-deferred accounts will be subject to ordinary income tax and, if taken prior to age $591 / 2$, may be subject to a $10 \%$ federal tax penalty. You should consider your personal investment horizon and income tax bracket, both current and anticipated, when making an investment decision as they make further impact the results.

You should choose your annuity, or investment product, based on its features and benefits and whether you can satisfy the conditions for the features and benefits, not its tax benefits alone. Buying an annuity within an IRA or other tax-deferred plan or account does not give you any additional tax benefits.

## Non-Qualified Taxable accounts:

The "Taxes Owed" is determined by using the "Average" cost basis method, assessed against the withdrawals only, then multiplied by the effective tax rate.

## Non-Qualified Tax Deferred accounts:

The "Taxes Owed" is determined by using the "LIFO" cost basis method, assessed against the withdrawals only, then multiplied by the effective tax rate.

## IRS Circular 230 Notice

As required by U.S. Treasury Regulations, any tax information contained in the report is not provided or intended to be used (and cannot be used) by any taxpayer for the purpose of avoiding penalties that may be imposed under the U.S. Internal Revenue Code.

## Income Rider Calculation

When withdrawing from an annuity product with an income rider, companies vary on the amount taken from the Income Rider Accumulation Value. This presentation takes out the withdrawals equally from the Accumulated Value, and proportionally from the Income Rider Value. The proportion is based on the difference between the Accumulated Value and the Income Rider Value. The other method is taking withdrawals dollar for dollar, meaning it's taken equally from both values. The report is designed to illustrate concepts and all specific product information must be presented with an appropriate company/custodian illustration.

## Actual Results May Vary

Unless otherwise noted, the assumed rates of return used to calculate various projections are static. The actual variability of returns can impact a portfolio's value. Rate assumptions do not take into account any advisory fees, brokerage or other commissions, or any other expenses, which if takerger
account would reduce performance.

## Important Disclosures

## Limitations on the Scope of the Report

Contents are for informational purposes. The information, data and analysis contained in this report include confidential and proprietary information of KonnexMe, LLC and are based on information provided by your FSP and cannot be verified by KonnexMe, LLC. KonnexMe, LLC is a software company. KonnexMe, LLC does not provide any legal, tax, investment or accounting advice. This report should not be construed as any such advice and shall be for informational purposes only. KonnexMe, LLC shall not be responsible for any trading decisions or losses resulting from the use of this information or analysis, except as otherwise provided by law.

An individual must consult with his or her own personal attorney, FSP, accountant or tax advisor for this advice, and should carefully consider each recommendation before deciding on a specific course of action. This report should be supplemental to any prospectus and/or disclosure brochure.

Information in this report may not be copied or redistributed.

Additional Disclaimer(s)
Investment advisory services offered through Gradient Advisors, LLC (Arden Hills, MN 877-885-0508), a SEC Registered Investment Advisor. Gradient Advisors, LLC and its advisors do not render tax, legal, or accounting advice.

[^0]:    *Assumed growth rates do not reflect fees or expenses, please refer to company-specific material. The report is designed to illustrate concepts and all specific product information must be presented with an appropriate company/custodian illustration.
    *Withdrawals that are associated with the Account Drawdown feature will not be included in the Withdrawal Summary. See page 3 \& 4 for details.
