

Healthy Smart Mart™ Replaces Legacy Vending with Zero-Cost Premium Breakroom Upgrades for Small to Large Size Businesses.

As Hybrid Work Redefines the Office, Micro-Markets Provide Companies a High-Value Employee Perk at Zero Rent or Cost to Facilities

Healthy Smart Mart™, the pioneer of the micro-market franchise industry and a leader in unattended retail, today announced a strategic initiative to accelerate the modernization of corporate breakrooms across North America. As commercial property owners, HR leaders, and office park developers adapt to the realities of the modern hybrid workforce, traditional vending machines are rapidly becoming relics of the past. Healthy Smart Mart™ is stepping into the gap by replacing outdated, broken cash-operated machines with high-end, self-checkout micro-convenience stores—at absolute zero cost and zero rent to employers and facility hosts.

As companies seek compelling incentives to encourage return-to-office attendance and boost workplace culture, access to fresh, healthy meal options has moved from a luxury to a baseline expectation. Healthy Smart Mart™ solves this challenge by transforming standard breakrooms into modern, automated retail spaces stocked with fresh salads, organic snacks, premium beverages, and gourmet food options available 24/7.

Elevating the Hybrid Workplace Experience The modern workforce operates on fluid schedules, making traditional cafeteria services financially unviable and rigid vending options deeply unsatisfying. Healthy Smart Mart's micro-market model utilizes open glass-front coolers, attractive shelving, and seamless self-checkout kiosks powered by advanced cashless payment technology. Employees can inspect product nutrition labels before buying, enjoying an elevated retail experience right in their office breakroom that boosts morale and keeps talent energized throughout the workday.

A Zero-Cost Amenity for HR Leaders and Property Managers For HR executives and commercial real estate developers looking to differentiate their buildings in a competitive market, Healthy Smart Mart™ offers a turnkey solution. Corporate host locations incur zero capital expenditure, zero maintenance responsibilities, and zero rental fees. Local Healthy Smart Mart™ operators handle the complete installation, inventory management, and servicing of the market, turning underutilized square footage into a premium, revenue-generating amenity that adds distinct value to the property.

Empowering Local Entrepreneurs Through Corporate Partnerships Behind every Healthy Smart Mart™ breakroom upgrade is a dedicated independent operator leveraging the company's proven business system. By bridging the gap between corporate wellness needs and entrepreneurial ambition, Healthy Smart Mart™ creates a scalable, high-margin passive wealth engine for local business owners while delivering exceptional corporate amenities.

About Healthy Smart Mart™ Healthy Smart Mart™ offers a premier business opportunity for entrepreneurs ready to enter the micro market industry. By transforming traditional workplace break rooms into modern, cashless convenience stores, they help operators build profitable

businesses. The company provides a proven model, innovative technology, and a unique funding program to ensure success. Bill Way, CEO, is a recognized authority in the field and a number-one Wall Street Journal bestselling author. Most notably, his latest book, *Micro Markets - Profit From The Automated Convenience Store BOOM!* outlines the future of the vending and micro market industry and is the first and ONLY book in print on the subject. Mr. Way is available for interviews, which tend to be quite fun and extraordinary. For more information, please visit HealthySmartMart.com.
