WHERE WE STARTED

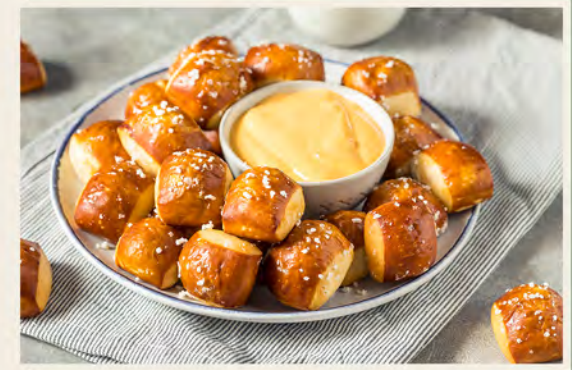

Founders Steven and Coreen Morgan operate this business with their two sons, Jason and Christopher, and an amazing group of team members. The foundation of the business was built upon both the owner's love for the surrounding communities and their desire to fulfill the needs of those people. This also stems from Steven's 20 years in the ministry, serving people and creating memories became a staple in his life.

They recognized the need for an all-inclusive and full-service company during COVID, and by 2021 Embellished was created. By offering high-end experiences and custom catering, they were able to secure 100 weddings within the first six months of business and continue to grow rapidly over the years.
