Response from
Chris Myers,
Facilities Manager

**“The flooring looks
better than when it was
installed in 2016!”**

DFS Flooring made these copy room floors look like originals.

The City of Citrus Heights needed to have the floor in two copy rooms refreshed. They were badly scuffed, and needed cleaning and sealing.

DFS Floorcare knew NeverStrip Vinyl Seal was the answer. The job was completed in 4 hours. 90% of the time was spent on removing the deep scuffs. Three coats of NeverStrip Vinyl Seal took less than 30 minutes (including drying time between coats).

Chris Myers, City Facilities Manager, was incredibly happy with the result. Not only did the floors look great, but the solution was economical, and will help preserve the facility. Clean, polished floors also help boost morale.

NeverStrip Vinyl Seal replaces floor finish. This new generation product eliminates stripping, eliminates frequent scrub and re-coating and better protects flooring from abuse, while being cost effective and easy to refresh.

DFS Flooring is the leading provider of commercial flooring services throughout California. Contact James Rehn at jamesr@dfsflooring.com and 916-330-2370.
