

NeverStrip Fabric & Carpet Shield

NeverStrip Fabric & Carpet Shield

NeverStrip Fabric & Carpet Shield is a next-generation, PFAS-free fabric protector specifically developed for carpet, upholstery and other woven materials. It creates an invisible, durable barrier that helps repel water-based spills and aqueous soils, allowing liquids to bead on the surface for easier cleanup while maintaining the natural appearance and feel of treated materials.

As the cleaning and textile industries transition away from PFAS-based fabric protectors due to growing environmental and health concerns, NeverStrip Fabric & Carpet Shield provides a high-performance, fluorine-free alternative that delivers excellent water repellency without fluorinated chemistry.

When paired with NeverStrip Shield®, facilities benefit from comprehensive protection against both water-based and oil-based staining, helping extend the life, appearance and cleanability of carpet, upholstery and other woven materials.

Dual Protection System

NeverStrip Shield

- Protects against oil-based soils and stains through release technology
- Excellent release of grease, oils and other oil-based contaminants
- Ideal for hard surfaces and compatible soft surfaces
- Makes surfaces easier to clean and maintain

NeverStrip Fabric & Carpet Shield

- Protects against water-based soils and stains
- Repels water and aqueous contaminants
- Helps prevent water-based liquids from penetrating fibers
- Optimized for carpet, upholstery and other woven materials

Together, NeverStrip Shield and NeverStrip Fabric & Carpet Shield provide comprehensive protection against both oil-based and water-based staining, helping keep surfaces cleaner, looking newer, and easier to maintain.

Features & Benefits

- Next-generation PFAS-free, fluorine-free technology
- High-performance alternative to conventional fluorochemical fabric protectors
- Repels water and water-based spills
- Helps prevent aqueous soils from penetrating fibers
- Maintains the natural appearance and feel of treated materials
- Fast drying under ambient conditions
- Excellent cleanability
- Suitable for carpet, upholstery and other woven materials
- Ready-to-use formulation
- No special heat curing required
- APEO-Free
- Non-flammable
- Commercial and industrial grade performance

Technical Information

Appearance: White to slightly yellow emulsion

pH: Approximately 4.0

Specific Gravity: Approximately 1.0 g/cm³

Technology: Water-based modified polysiloxane

Ready-to-use

Ambient temperature cure

Fluorine-Free Technology

PFAS-Free

Packaging

8 oz bottle

16 oz bottle

32 oz (Quart)

128 oz (Gallon)

Coverage

Typical coverage: **1,000–1,500 square feet per gallon**

Actual coverage will vary depending on the material being treated, substrate absorbency, application method, and the individual applying the product.

NeverStrip Fabric & Carpet Shield

Ideal Applications

Commercial carpet
Area rugs
Upholstered furniture
Office furniture
Fabric partitions
Draperies
Hospitality furnishings
Other woven materials

Surface Preparation

- Thoroughly vacuum or clean the surface.
- Remove all soils, detergents and cleaning residues.
- Ensure the surface is free of surfactants, residual alkalis and other contaminants that may interfere with performance.
- Always test in an inconspicuous area prior to full application.

Application

Ready to use. Do not dilute.

1. Shake container well before use.
2. Apply a light, even coat using an appropriate spray system.
[\(See application method video\)](#)
3. Hold the spray nozzle approximately 12–16 inches from the surface.
4. Apply using overlapping passes to ensure uniform coverage.
5. Avoid over-saturating the material.
6. Allow the product to dry naturally under ambient conditions. Typically, 2-3 hours.

Caution

- Avoid inhalation of atomized spray during application.
- Use only with adequate ventilation.
- Appropriate respiratory protection should be used where required during large-scale spray applications.
- Do not freeze.
- Store between 41°F (5°C) and 95°F (35°C).
- Product is not freeze/thaw stable.
- Do not ingest.
- Additional precautions, safety information and first aid procedures are contained in the Safety Data Sheet.

Handling & Storage

- Protect product from freezing and prolonged exposure to excessive heat.
- Store tightly closed in the original container.
- If the product has been stored for an extended period, stir gently before use. For professional use only.
- Not for sale or resale to the general public.
- Must be applied by a NeverStrip Certified Contractor or NeverStrip Authorized Dealer.
