

Micron Restore™

Micron Restore is a neutral pH cleaner-restorer specifically designed to work with NeverStrip Tile Seal, Vinyl Seal and Terrazzo and Stone Seal micron coatings.

Micron Restore will clean and renew the luster of NeverStrip's micron coatings to maximize the coatings' value and long-term benefits. The proprietary formula actually cleans and then restores the surface condition by depositing micro droplets of rebuilding blocks onto the coated surface.

These building blocks enhance the coated surface condition; improve burnishing effectiveness and decrease recoating frequency.

Micron Restore works best if used once every 20-30 cleanings with an autoscrubber. The product is most effective in conjunction with NeverStrip Micron Clean used for daily auto scrubbing. Floors cleaned with NeverStrip Micron Clean and periodically with NeverStrip Micron Restore will stay cleaner, clearer, longer.

Packaging:

Pre-measured Gallon - for a 10-gallon auto scrubber tank (Windsor Chariot iScrub20)

Dilution Rate:

Light Deposits/Daily Auto Scrub Cleaning
10 oz to 1 gallon of water
