

Ceramic Bond™

NeverStrip Ceramic Bond™ is a bonding additive for NeverStrip Gloss,™ NeverStrip Satin™ and NeverStrip Matte.™ Ceramic Bond is added to the Part B of these three water-based urethane products prior to mixing with the Part A to enhance adhesion to ceramic, porcelain and brick surfaces.

Ceramic Bond is corrosive!

Applicators or anyone in the immediate area during mixing and application must wear protective clothing and respiratory protection. Read and carefully follow the Safety Data Sheet.

Mixing and Application

- 1 Stir into the Part B component for 15 seconds prior to the mixing of the coating.
- 2 Use all of the contents of the bottle.
- 3 One ounce for a quart of coating and four ounces for a gallon.

READ AND CAREFULLY FOLLOW THE SAFETY DATA SHEETS

- 4 Ceramic Bond is corrosive and requires the use of an appropriate, properly fitted and maintained respirator providing both respiratory and eye protection and chemical resistant gloves.
- 5 No personnel should be in the space during mixing, application and within 8-hours after application without proper protection.

For Industrial Use Only

Not for sale to or resale to the general public.
For NeverStrip Authorized Dealer Professional Use Only.

Packaging:

The product comes pre-packaged
in 1 ounce and 4 ounce glass bottles.
