Bryan Warning, President
BMW Janitorial:

**“There had
to be a
better way.”**

21st Century Floor Care Technology™

BMW Janitorial is helping grocery stores break a bad habit: wax.

BMW Janitorial manages floor care for multiple Southeast Iowa grocery stores. Three years ago, Brian Warning, BMW's President, did some research on wax alternatives for VCT and terrazzo floors. He found NeverStrip Floor Coatings' Micron floor care products.

Since early 2016, BMW has been using NeverStrip Vinyl Seal™ on VCT floors and NeverStrip Stone, Terrazzo and Concrete Seal™ on his customer's terrazzo floors. All the stores are now wax free!

The benefits to BMW's customers are the elimination of stripping; less interference with store operations and the drastic reduction of scrub and recoat and burnishing frequency. A fuller description can be found at www.neverstrip.com/micronfloorcare.

BMW Janitorial is a full-service Business Service Contractor based in Bloomfield, Iowa servicing a wide range of commercial facilities including schools, retail and health care. Brian can be reached at 641-208-6295 and bmwjantorialservice@gmail.com.
