

NeverStrip MicroBot Kitchen & Restroom

MicroBot Kitchen & Restroom

Product Description

MicroBot Kitchen & Restroom (MKR) is a biological cleaning solution formulated with scientifically selected *Bacillus* strains designed to digest organic waste, grease, oils, and odor-causing compounds. This concentrated microbial cleaner helps reduce odors while supporting ongoing biological cleaning activity after application.

MicroBot Kitchen & Restroom is designed for use in commercial restrooms, locker rooms, kitchens, as well as drains, grout lines, and other hard surfaces where organic buildup, grease, and persistent odors are common concerns. The biological formulation continues working after application to help break down residual organic matter in porous and difficult-to-reach areas.

Features & Benefits

- Biological cleaning action using specialized *Bacillus* strains
- Helps reduce odors caused by organic waste and grease buildup
- Assists in breaking down fats, oils, and grease (FOG)
- Continues working after application for ongoing odor control
- Penetrates porous surfaces and grout lines for deeper cleaning
- Suitable for daily maintenance or restorative cleaning procedures
- Compatible with all NeverStrip Micron Sealers
- When used as directed and where permitted by local regulations, the product may be disposed of through normal sanitary sewer systems
- Aids in ongoing drain cleaning
- Non-hazardous and environmentally safer formulation
- No harsh fragrance

Recommended Applications

- Restrooms
- Locker rooms

- Commercial kitchens
- Floor drains
- Toilets and urinals
- Tile and grout
- Shower areas
- Garbage and waste areas
- Any hard floor surface not harmed by water

Restorative Cleaning Process

- Read entire product label before use
- Sweep or remove loose debris from the surface
- Turn MicroBot Kitchen & Restroom container over twice to mix solution. **DO NOT SHAKE.**
- Fill mop bucket or sprayer with **WARM** tap water. **DO NOT USE HOT WATER.**
- Dilute MicroBot Kitchen & Restroom at 19:1 (19 parts water to 1 part MKR)
- Apply solution liberally using mop, sprayer, or auto scrubber with squeegee up
- Immediately scrub or agitate the solution on the floor with a 175-rpm floor machine or equivalent equipment with a soft to medium grit brush or pad appropriate for the floor type
- Allow 15–20 minutes dwell time
- Re-agitate heavily soiled areas as required
- Evaluate condition of floor to verify if additional scrub(s) are required
- Move to floor drain, or extract remaining solution using wet vacuum, auto scrubber, or rinse and recovery system
- Rinse the floor with clean water
- Dispose of used solution through drains where permitted to assist in reducing grease, oils, and odor-causing organic buildup
- Allow surface to dry before reopening to traffic

Daily/Frequent Maintenance Cleaning Instructions

- Read entire product label before proceeding
- Sweep the floor
- Turn MicroBot Kitchen & Restroom container over twice to mix solution. **DO NOT SHAKE.**

MicroBot Kitchen & Restroom

- In **WARM** Water dilute MicroBot Kitchen & Restroom 19:1 (19 parts water to 1 part MKR)
- Mop the floor, wringing the mop as you go
- Allow floor to air dry (No need to rinse floor)
- Pour used solution down drains, toilets and urinals to assist in cleaning; this reduces grease and oils and reduces/eliminates odors in your drains

Auto Scrubber Cleaning Instructions

- Read entire product label before use
- Sweep or remove loose debris from the surface
- Turn MicroBot Kitchen & Restroom container over twice to mix solution. **DO NOT SHAKE.**
- In **WARM** Water (**DO NOT USE HOT WATER**) dilute MicroBot Kitchen & Restroom 19:1 (19 parts water to 1 part MKR) in the auto scrubber for daily use
- Use a red pad or equivalent soft-to-medium brush
- Scrub and extract in normal operating fashion
- Add an appropriate amount of defoamer to the recovery tank as required to control foaming
- Dispose of recovered solution through drains where permitted to assist in reducing grease, oils, and odor-causing organic buildup within drain systems

Warranty

The information contained herein is believed to be reliable. Users should test the product under their own conditions to determine suitability for their intended application. NeverStrip assumes no liability for misuse or improper application of this product.

Technical Information

Property	Description
Product Type	Biological Cleaner
Active Ingredient	Bacillus Bacteria
Concentration	20X
Dilution Ratio	19:1
Appearance	Liquid
Fragrance	None
Shelf Life	Two Years
Storage	Store in a cool, dry place
Packaging	Various packaging options available

Important Notes

- For enhanced odor control and continued biological activity, a light spray application of diluted MicroBot Kitchen & Restroom may be applied following cleaning procedures to porous surfaces, grout lines, drains, restroom fixtures, locker room surfaces, and other difficult-to reach areas. Allow to air dry. Do not rinse.
- Residual Bacillus activity continues working after application to help digest remaining organic matter, grease, and odor-causing compounds.
- Do not use in conjunction with bleach, highly acidic, or highly alkaline cleaners, as these products may reduce biological activity.
- Always test in an inconspicuous area prior to full application.
- Keep container tightly closed when not in use.
- Store in a cool, dry place.
