In case of skin contact	If skin irritation persists, call a physician If on skin, rinse well with water If on clothes, remove clothes
In case of eye contact	Small amounts splashed into eyes can cause irreversible tissue damage and blindness In the case of contact with eyes, rinse immediately with plenty of water and seek medical advice Continue rinsing eyes during transport to hospital Remove contact lenses Protect unharmed eye Keep eye wide open while rinsing If eye irritation persists, consult a specialist
If swallowed	Keep respiratory tract clear Do NOT induce vomiting without medical advices Do not give milk or alcoholic beverages Never give anything by mouth to an unconscious person If symptoms persist, call a physician Take victim immediately to hospital

SECTION 5 FIREFIGHTING MEASURES

Suitable extinguishing media	Use extinguishing measures that are appropriate to local circumstances and the surrounding environment
Unsuitable extinguishing media	High volume water jet

Microbot Floor Finish Eliminator

Specific hazards during firefighting	Do not allow run-off from fire fighting to enter drains or water courses
Hazardous combustion products	carbon oxides Sulfur oxides
Further Information	Collect contaminated fire extinguishing water separately. This must not be discharged into drains. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations.
Special Protective equipment	Wear self-contained breathing apparatus for firefighting if necessary

SECTION 6 ACCIDENTAL RELEASE MEASURES

Personal precautions, protective Equipment and emergency procedures	Use personal protective equipment
Environmental precautions	Collect spillage
Methods and materials for Containment and cleaning up	Soak up with inert absorbent material (eg sand, silica gel, acid binder, universal binder, sawdust) Keep in suitable, closed containers for disposal

SECTION 7 HANDLING AND STORAGE

Advice on protection against fire and explosion	Normal measures for preventative fire protection
Advice on safe handling	Do not breathe vapors/dust Avoid exposure-obtain special instructions before use Avoid contact with skin and eyes For personal protection see section 8

Microbot Floor Finish Eliminator

	Smoking, eating and drinking should be prohibited in the application area
	To avoid spills during handling keep bottle on a metal tray
	Dispose of rinse water in accordance with local and national regulations
Conditions for safe storage	Persons susceptible to skin sensitization problems or asthma, allergies, chronic or recurrent respiratory disease should not be employed in any process in which this mixture is being used. Keep container tightly closed in a dry and well-ventilated place. Containers which are opened must be carefully resealed and kept upright to prevent leakage. Electrical installations/working materials must comply with the technological safety standards
Recommended storage temperature	4-49° C
Storage period	24 months

SECTION 8 EXPOSURE CONTROLS/PERSONAL PROTECTION

Components with workplace control parameters

Contains no substances with occupational exposure limit values

Personal protective equipment

Respiratory protection

General and local exhaust ventilation is recommended to maintain vapor exposures below recommended limits. Where concentrations are above recommended limits or are unknown, appropriate respiratory protection should be worn. Follow OSHA respirator regulations (29 CFR 1910.134) and use NIOSH/MSHA approved respirators. Protection provided by air purifying respirators against exposure to any hazardous chemical is limited. Use a positive pressure air supplied respirator if there is any potential for uncontrolled release,

Microbot Floor Finish Eliminator

Hand Protection Remarks	exposure levels are unknown, or any other circumstance where air purifying respirators may not provide adequate protection. The suitability for a specific workplace should be discussed with the producers of the protective gloves
Eye Protection	Eye wash bottle with pure water Tightly fitting safety goggles Wear face-shield and protective suit for abnormal processing problems
Skin and body protection	Impervious clothing Choose body protection according to the amount of concentration of the dangerous substance at the workplace
Hygiene measures	When using do not eat or drink When using do not smoke Wash hands before breaks and at the end of the workday
