NeverStrip Micron Primer[™]

NeverStrip Micron Primer

NeverStrip Micron Primer is applied prior to NeverStrip Vinyl Seal™ or Micron All-Surface Sealer™ to enhance the shine and depth of appearance of the System on vinyl composition tile (VCT). Typically, two or three applications of Micron Primer are desired. NeverStrip Vinyl Seal or Micron All-Surface Sealer is then applied and burnished to achieve a completed system.

Characteristics

Add shine to a NeverStrip Vinyl Seal/ Micron All-Surface Sealer System on vinyl composition tile (VCT).

Does not need to be stripped in its normal lifecycle. UV stable.

Solids: 18%

VOC: Content Less than 50 gms/L

pH: 8.5

Typically dries in 25 minutes for recoat or application of Vinyl Seal/Micron All-Surface Sealer

Coverage

2500 sq ft/Gallon/Coat is typical

Packaging

One Gallon Plastic Bottle
One Quart Plastic Bottle.

NeverStrip Floor Coatings
2816 Centre Circle
Downers Grove, IL 60515

Floor Preparation and Application

Using Microbot Floor Finish Eliminator, remove any floor finish from the floor and/or clean the floor and let dry removing soil, marks, grease, etc.

Shake Micron Primer before use.

Micron Primer should be lightly sprayed onto a looped NeverStrip supplied microfiber pad to make the pad damp. Then, lightly spray the product onto the clean floor in sections typically 3ft X 6ft sections. Spread the product evenly with the damp microfiber pad within the Section. Move from Section to Section with overlapping to avoid skips.

Allow Micron Primer to dry for typically 25 minutes. A fan may be helpful with higher humidity to aid the drying. Do not point the fan directly onto the floor within the first 5 minutes.

2-3 thin applications of Micron Primer are typical.

Apply NeverStrip Vinyl Seal or Micron All-Surface Sealer and burnish final application.

Caution

Avoid contact with mucous membranes.

Avoid contact with steel, glass, aluminum, or painted surfaces.

Close container tightly after each use.

Use within 12 months of purchase.

This product is alkaline.

Avoid contact with eyes and skin.

Keep out of reach of children.

Product may be harmful if inhaled or swallowed.

For professional use only

Not for sale to or resale to the general public.
