Available Sizes	Pint	Gallon
Units	12	4
SKU	TGR...PT	TGR...GAL

Slip Resistance Solutions. Liquid Grip has been engineered for use on any hard surface flooring including: Ceramic, Porcelain, Stone, Terrazzo, Concrete, Sheet and Vinyl Tile. This two-step process starts with a fine aggregate solution applied by roller, followed by an application of part 2 to lock in the aggregate. Liquid Grip is used in wet environments such as: shower floors, locker rooms, restrooms with showers or tubs, pool decks, outdoor patios. Note: Liquid Grip is not designed to be used on flooring that is submerged in water.

Slip Resistance Solutions

Liquid Grip

Micron Sealer for Wet floor Traction

- Use on any hard surface flooring
- Step 1 - quart bottle with fine aggregate
- Step 2 - quart without aggregate
- Apply with foam roller

Available Sizes	Kit
Units	1
SKU	CNSLIQGRIPKIT
Coverage/Unit*	500 sf

*Per coat

The **Micron Solutions portfolio** includes all the pads necessary for sealer application, restoration, burnishing and polishing. Hard surface flooring use includes LVT, sheet vinyl, concrete, stone and terrazzo.

Diamond Pads

Micron Diamond Encrusted Pads are a premier, European made, pad for use with stone, terrazzo and concrete surfaces. These pads are preferred by technicians for easier control, reduced vibration compared to diamond pucks, reduced dust and consistency in coverage from one pad to the next.

Coarse - 220 grit

Used to buff out surface scratches- typical 1,000 sf of coverage for wet polishing. Single sided use.
Sizes available: 3", 7", 17", 20"
