Nazareth Facility Director

**“We constantly
receive compliments
on the appearance
of our floors!”**

NeverStrip Gloss has kept Nazareth Academy's floors beautiful for over 12 years.

Nazareth Academy has been using the NeverStrip Gloss water-based urethane product on ALL resilient and wood flooring surfaces throughout the school for 12+ years.

Nazareth totally stopped using floor finish (or wax) by switching to NeverStrip Gloss. Only one coat is needed to provide an outstanding appearance with superior performance. Ongoing maintenance consists only of auto scrubbing with a red pad and a wide range of acceptable cleaners.

The floors are easy to clean. No stripping has been needed or performed for more than 12 years. No burnishing is necessary to maintain the shine. Recoat cycles range from 3-4 years on the VCT in the 850 student dining hall; 4-5 years for the schools two wooden gymnasium floors; and 5+ years for hallways.

The NeverStrip Gloss product has resulted in substantial reductions in floor care maintenance cost. No more moving classroom furniture to the hallways every Summer or hiring part time workers to handle the crunch of stripping and waxing the floors.

NeverStrip Floor Coatings is a manufacturer of floor sealers and coatings based on 21st Century floor care technology. NeverStrip offers its floor care sealers and coatings to a selected, nationwide network of Authorized Floor Care Maintenance Contractor, who apply the products. This Authorized Dealer approach assures quality and consistency throughout the country. Visit NeverStrip.com for more information.
