

NeverStrip | 21st Century Floor Care Technology™

Microbot Products

Cleaning the Way
Nature Intended.

WHAT ARE NEVERSTRIP MICROBOT PRODUCTS?

NeverStrip Microbot Products harness the power of naturally occurring *Bacillus* microorganisms to break down fats, oils, grease, urine, proteins, and other organic soils, converting them into water and CO₂. The result is cleaner, safer facilities with less labor, fewer odors, improved traction, and a better overall cleaning experience.

THREE PRODUCTS. THREE SOLUTIONS. ONE TECHNOLOGY.

Microbot Grease Eliminator

- Converts hydrocarbons to water/CO₂
- Replaces degreasers
- Easy to use
- Fast acting
- Labor efficient
- Safe
- Odor reduction
- Cleans drains and grease traps
- Attractive traction
- Neutral pH
- Pleasant fragrance
- Dilute 1:11 with warm water
- 300 sq. feet per diluted gallon

Microbot Floor Finish Eliminator

- Converts floor finish/wax to water/CO₂
- Replaces strippers
- Fast acting
- Easy to use
- Labor efficient
- Odor reduction
- No stripper sludge to dry
- Attractive traction
- Pleasant fragrance
- Neutral pH
- Dilute 1:11 with warm water
- 300 sq. feet per diluted gallon

Microbot Kitchen & Restrooms

- Converts urine/soap to water/CO₂
- Digests food sources for larvae
- Breaks down slippery organics
- Odor reduction
- Pleasant fragrance
- Neutral pH
- Dilute 1:20 with warm water
- 300 sq. feet per diluted gallon
