

Steps for applying Liquid Grip

**Thoroughly clean and rinse
the surface to be sealed
with appropriate cleaner.**

**Protect adjoining
areas/surface not
being sealed.**

**Prior to application,
evenly pre-dampen
microfiber applicator
pad with Micron Sealer
to avoid streaking.**

**Apply a light “ribbon”
of Micron Sealer
across a 6-8 ft “run”.**

**Immediately lay out
the Sealer with
microfiber applicator pad.**

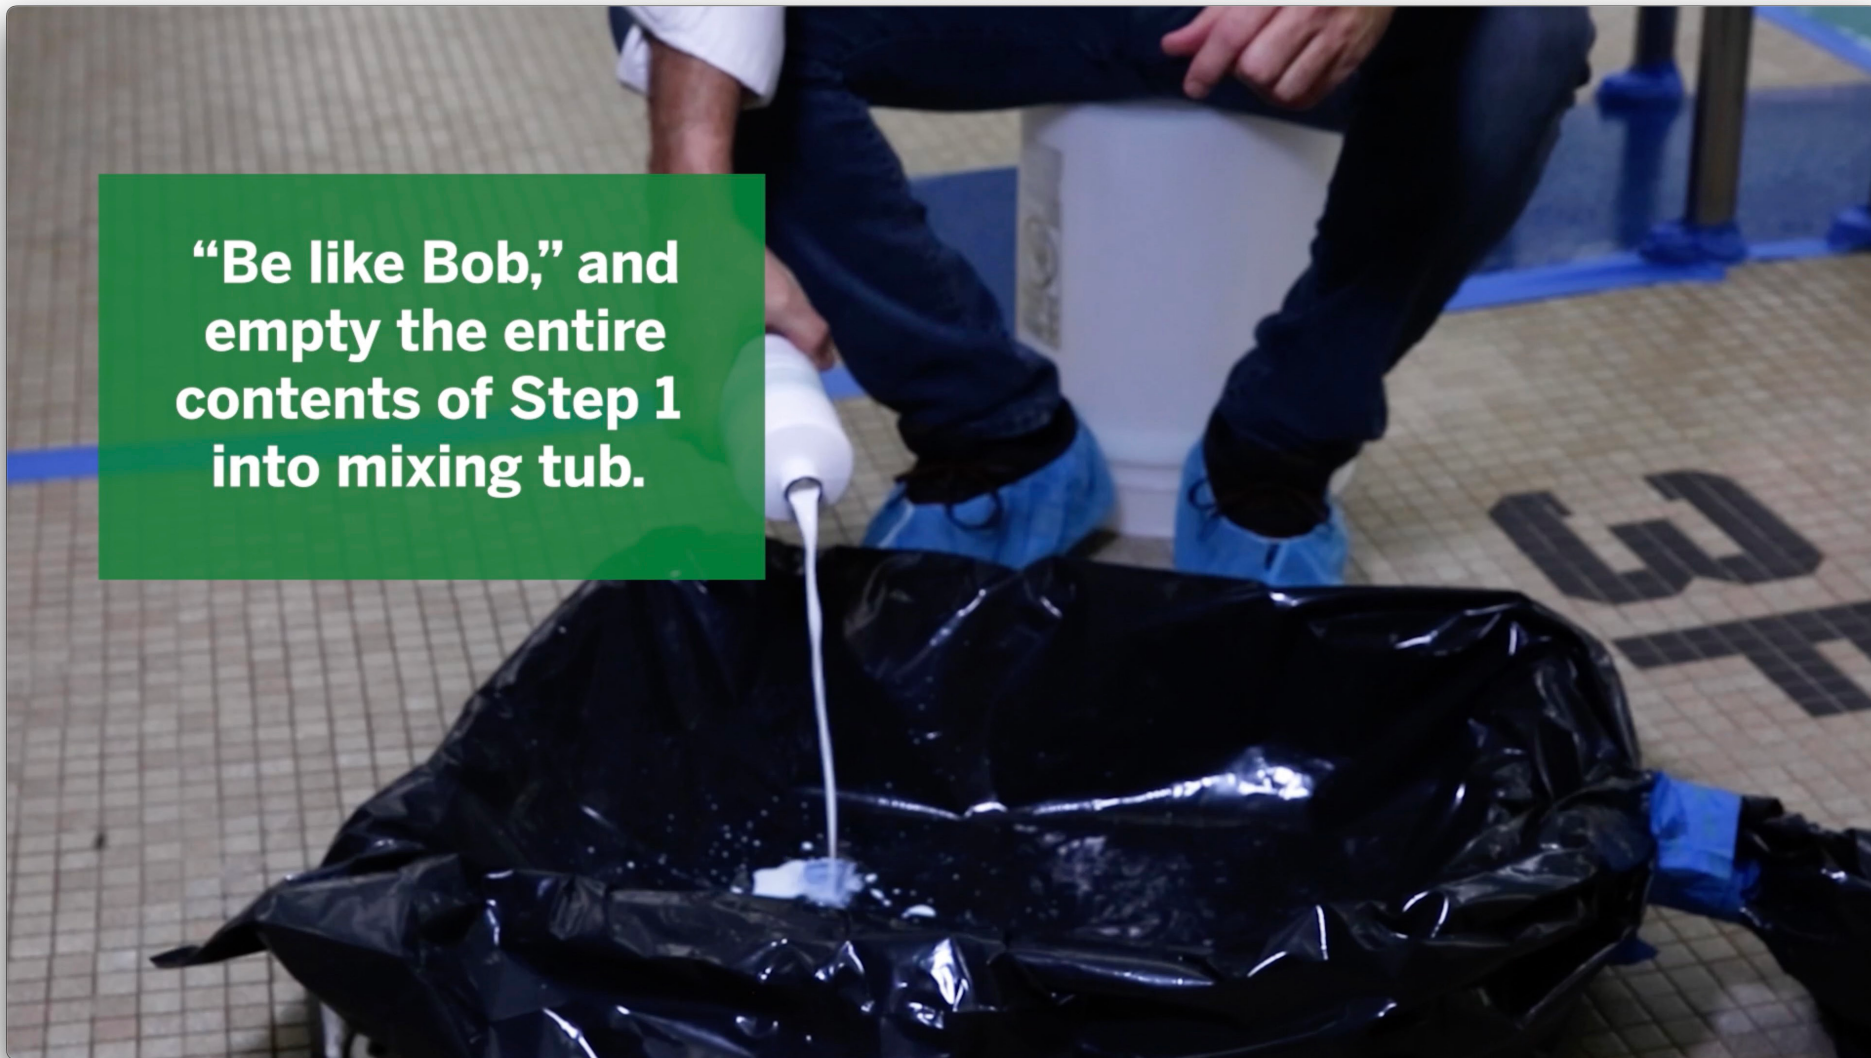

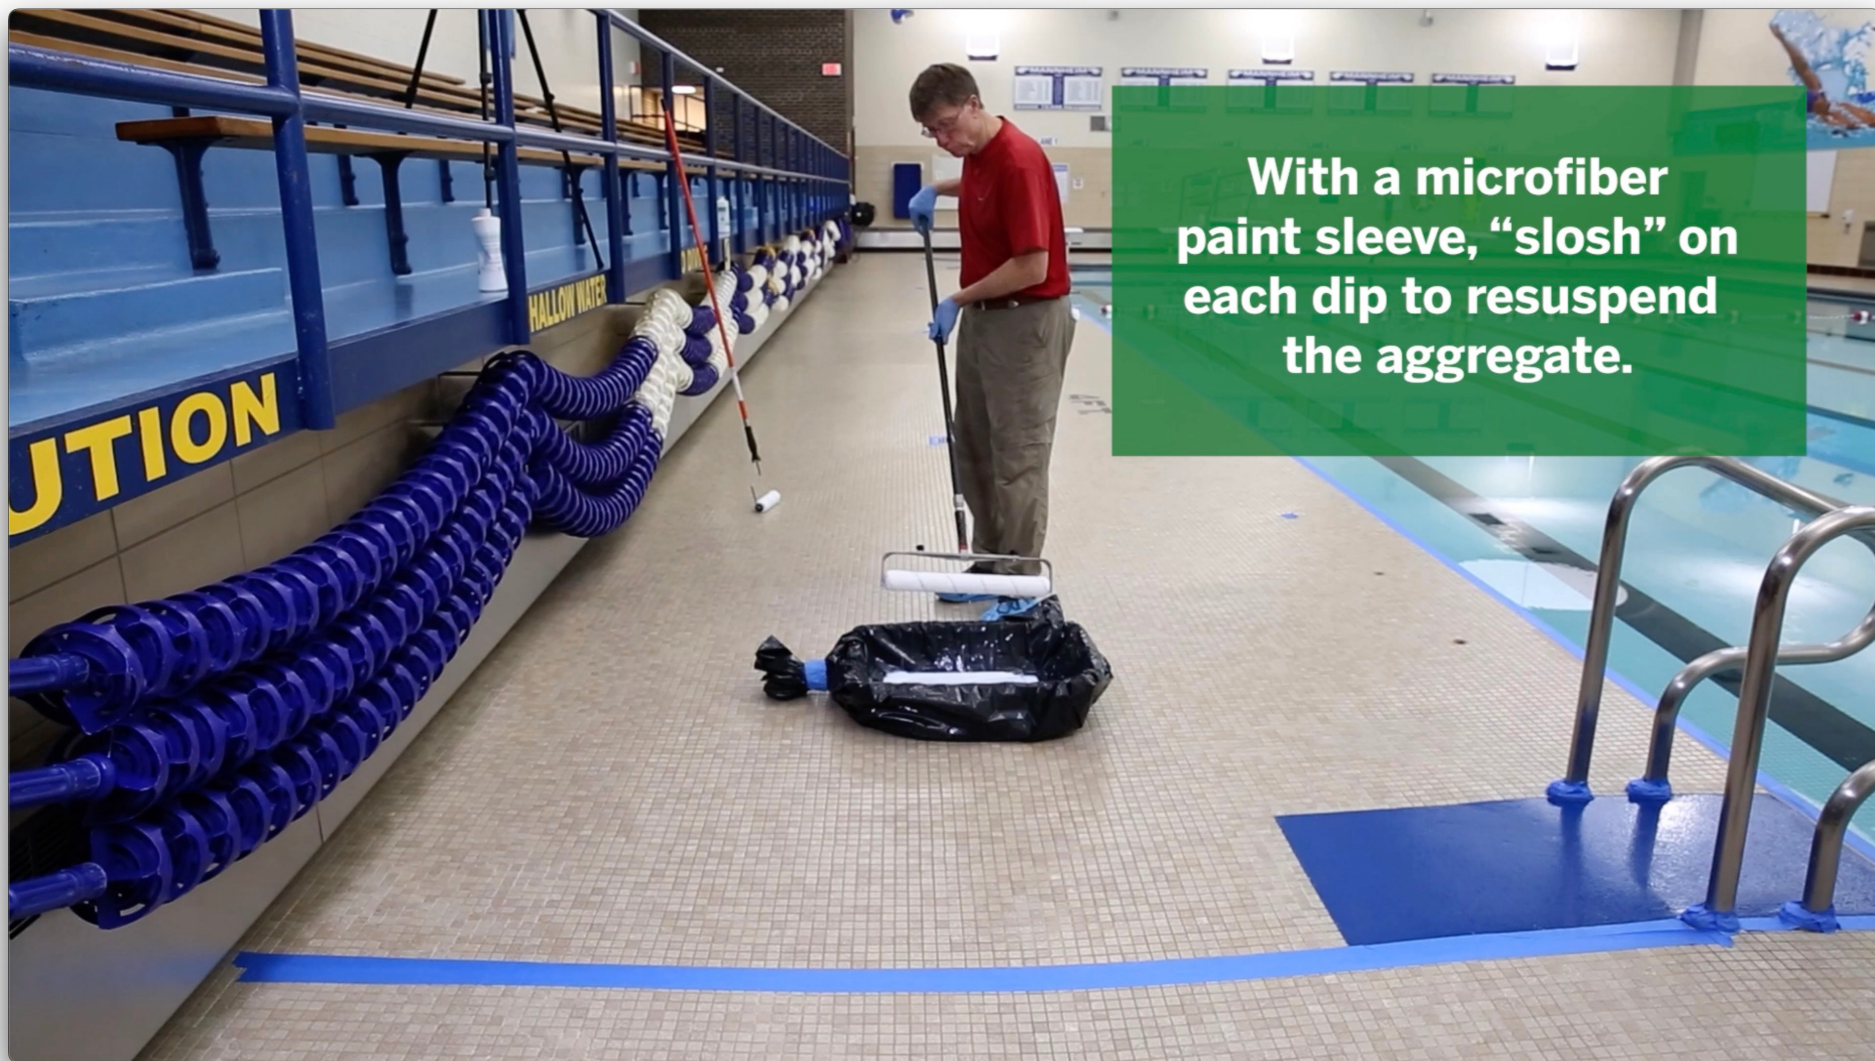

**Allow Micron Sealer
to dry 10 minutes
before beginning
Step 1 of Liquid Grip.**

**Use a garbage bag
as a liner for 7-gallon
mixing tub.**

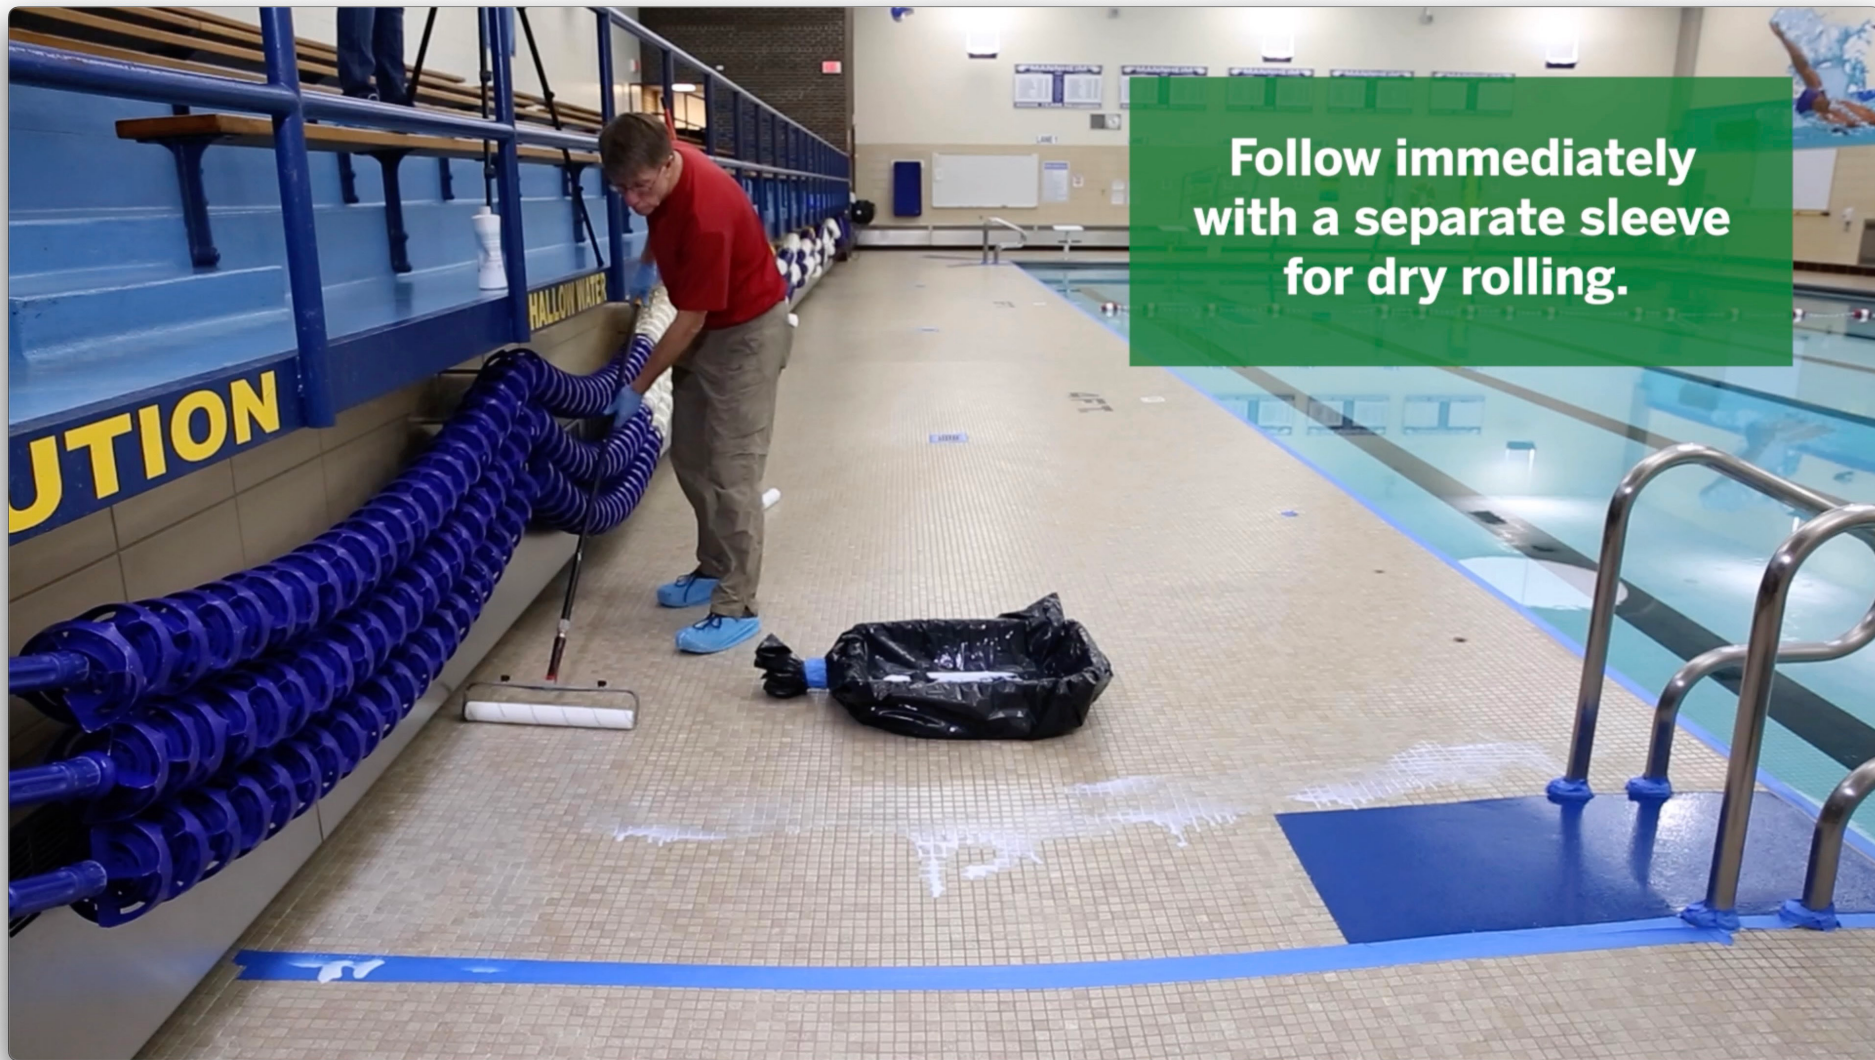

**“Be like Bob,” and
empty the entire
contents of Step 1
into mixing tub.**

**Lay out a ribbon across
the center of a 4 ft
deep x 8 ft wide, run.**

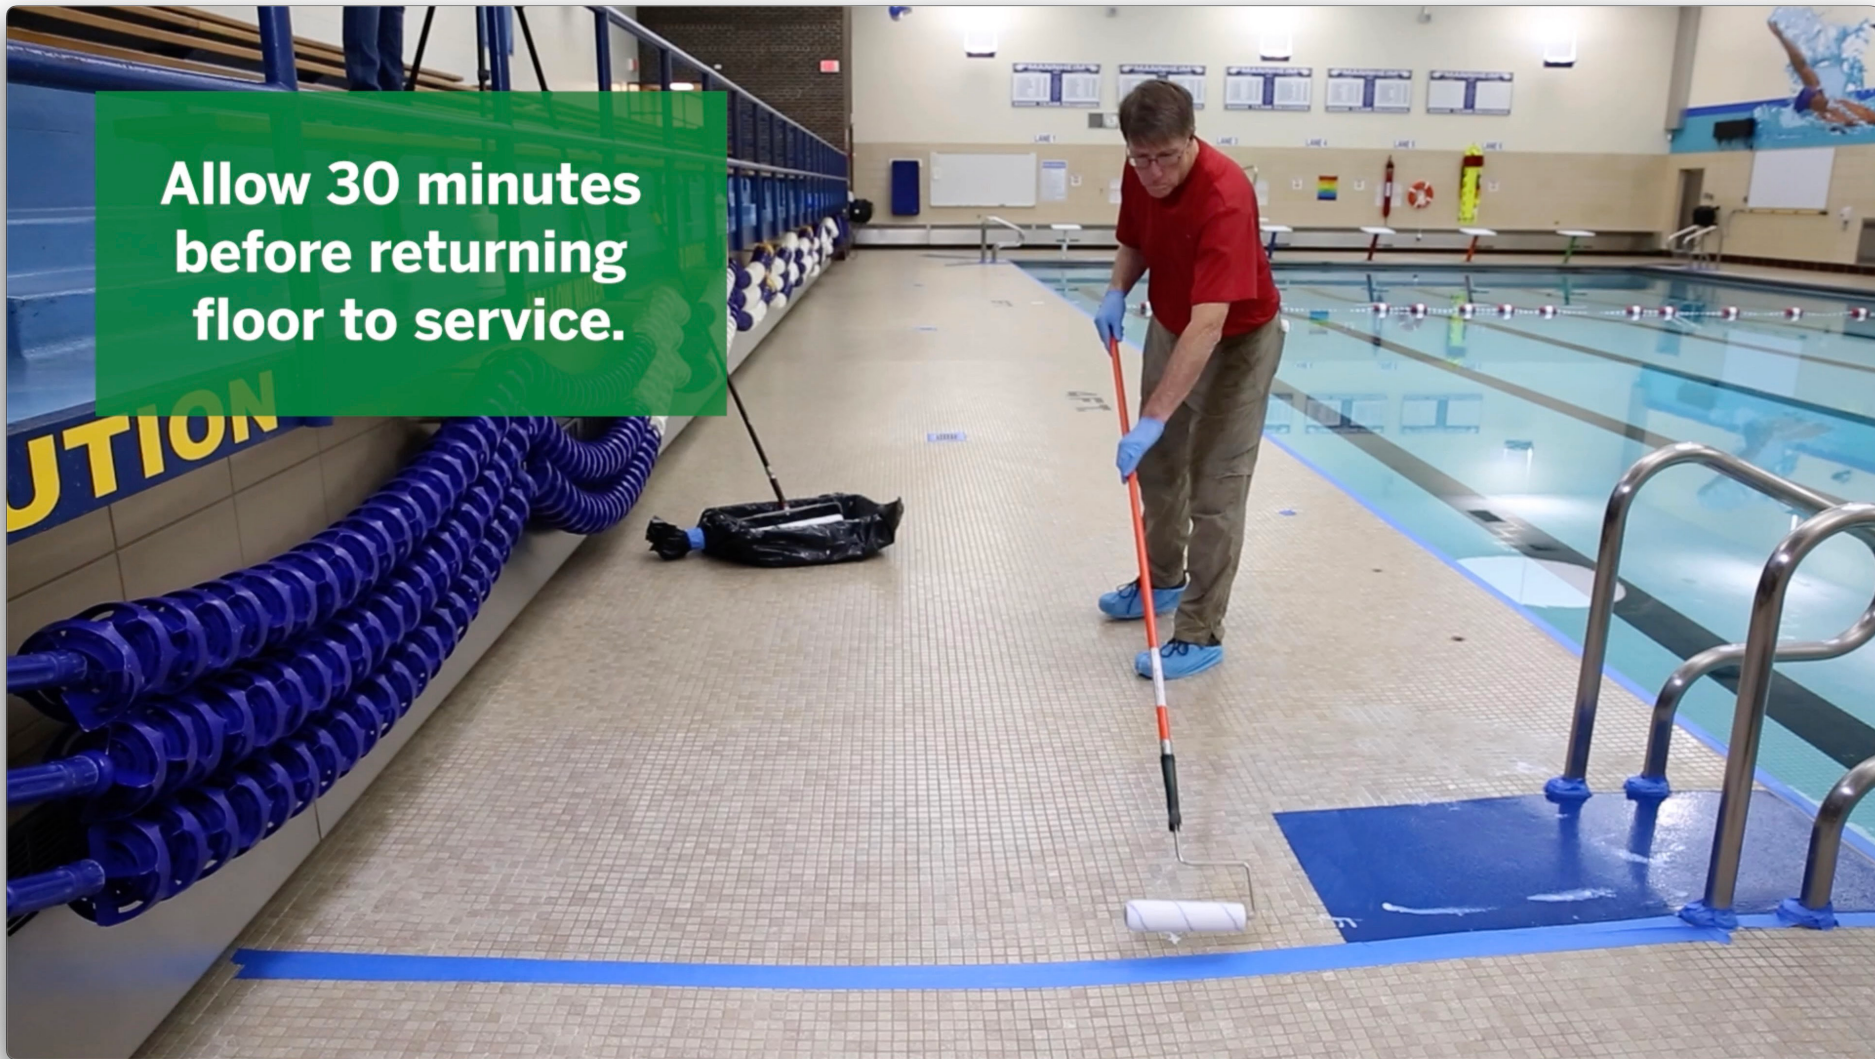

For Step 2 of Liquid Grip, repeat previous steps with 2 new sleeves and a new garbage bag liner.

**Allow 30 minutes
before returning
floor to service.**

**No water/cleaning
activities on Sealer
for eight hours.**
