

Eco Guard - Reinforced Sustainable Packaging Paper

LIQUID RESISTANT & RECYCLABLE REINFORCED PROTECTIVE ENVELOPE PAPER

BENEFITS OF USE

Winona Building Products' heavy-duty, tri-directional fiberglass-scrim-reinforced, protective paper prevents water and other liquids from soaking through and damaging expensive envelope contents. The triple layer construction creates a very strong envelope that is puncture, water, and burst resistant. It is also curb side recyclable, Red List Free and California Prop 65 compliant. Sold in rolls starting at 5000 linear feet, and available in 30lb or 25lb weights, in natural fiber or recycled paper, it performs just like normal paper stock and allows for quick set up during envelope manufacturing.

FEATURES

- Red List Free
- Water-resistant
- Oil-resistant
- Grease-resistant
- Puncture-resistant
- Tear-resistant
- Bust-resistant

FOR USE WITH

High volume e-commerce shipping solutions that require eco-friendly recyclable durability.

PHYSICAL PROPERTIES

Top and Bottom Plies: 30/25 lb Natural Kraft or Recycled Paper

Laminating Adhesive: Synthetic latex

MD Reinforcement: 110 Fiberglass, 2/inch

CD Reinforcement: 110 Fiberglass, 3/inch

Composite Weight: 87/65 lbs/3000ft²

Caliper (mils): ≥6

The physical properties listed above are average values. Applications and uses are suggestions only. Winona Building Products, LLC assumes no liability for claims beyond the replacement value of our product proved to be defective.
