Team Spotlight - Misfits Baseball Club

Based out of Fayetteville, North Carolina, Misfits Baseball Club is a growing, faith-driven program. Now in just their second season, MBC has already expanded to four teams ranging from 10U to 13U, creating opportunities for young athletes to develop their skills while staying grounded in what matters most. When it came time to invest in new uniforms, the goal was clear—stand out from the crowd while staying true to their identity. After hearing strong recommendations locally in Tennessee, they partnered with Grind Sportswear to bring that vision to life.

What was most important to you when choosing a uniform/apparel partner?

Being sure that all of our needs were met was the top priority of us as an organization. We had a vision before reaching out to the sales team. The ability for us to continue to add new players easily [through small batch add-on ordering] has been the biggest selling point for us - and should be for any organization.

How would you describe your experience working with our team?

A blast! The conversations come easy...I can text the team at any point to request new add-ons and they put it through quickly.

What did you have in mind for your design, and how did it come together?

We knew we wanted 3 uniforms. The first being a military green base color. I told the team at Grind Sportswear our name, sent our logo, and told him to incorporate the American Flag. The Mockup was perfect on the first shot! We loved it. The military green is our coach's favorite color combo! The second uniform we just asked for a navy base color. Again, the team at Grind did great! We have no complaints. The final jersey is the players favorite! We requested a pink/blue vibe with a black jersey. The mockup team did excellent in bringing our visions to life! We like how all the jerseys were identical to the mockup! We knew exactly what we were getting.

How did the team react when they first saw or wore the uniforms?

They were ecstatic! Most of our 13u team go to the same middle school together. On any given morning you will see a couple of the boys sporting their jerseys to school.

The team culture here is unmatched! They love putting their gear on and getting ready to play as a team.

Would you recommend Grind Sportswear to other programs?

Absolutely! The process was so smooth. Greg has been a breeze (and is quite funny). If you are having any doubts on who to use as a supplier, please reach out to the team at Grind and see why Misfits will always sport the G on our unis! We are not looking for any other uniform production company. Grind has a customer for life!

The Coaches' Corner with Greg & Scott

May always means we are fresh off the NFL Draft, one of our favorite parts of the sports calendar each year. As fans there is always the anticipation of how are teams will make decisions that can impact our emotions this year. As avid fantasy football players, it is exciting to see how our rosters will shape up for the next season. And as coaches we get to think about how these players might fit different schemes and how it plays into coaching strategies. To say the least, it gives us plenty of fuel for debate and conversation around the office! Greg and Scott provided us with their favorite picks from this year's draft.

the Giants got here, even if it was only getting a versatile player like Reece 2-3 picks later than expected. I think he'll come in right away and have a massive presence - of course, it might also be more about sour grapes that my Cardinals passed up on him."
