

# AT740

## APPLICATION

This non-rubber infilled turf has all the advantages of previous generations and performs even higher in wear and resistance tests. The blend of nylon and polyethylene is an almost perfect 50/50 combination. This gives you the true ball roll of a traditional nylon field, with the softness of the new generation rubber-filled turf. No rubber infill makes maintenance easier, and up to 10% cooler. These systems can also be portable with added 4" velcro.

### PROPERTY

### DESCRIPTION

<b>Primary/Stalk Yarn Polymer</b>	52% Polyethylene
<b>Secondary/Thatch Yarn Polymer</b>	48% Nylon
<b>Yarn Cross Section</b>	Polyethylene Slit-Film/Texturized Nylon
<b>Standard Colors</b>	Field Green; White; Red; FLA Blue; Yellow; Black
<b>Coating Type(s)</b>	SilverBack™ Polyurethane or 5mm Polyurethane Foam w/fleece
<b>Perforations</b>	Custom only
<b>Pile Height</b>	3/4"
<b>Total Fabric Weight</b>	67 oz/yd <sup>2</sup> (SilverBack™) 125 oz/yd <sup>2</sup> (Foam)
<b>Fabric Width</b>	12 and 15 ft.
