

Age and Grade Level Policy

Our programs are organized by grade level to ensure participants share similar skill levels and age groups, creating an optimal learning environment. While we recognize that some children may advance more quickly or join sports later than others, we kindly request that parents register their child for the program corresponding to their grade level. To maintain the integrity of our programs, we encourage participants to continue attending the designated program for their grade level.

If you believe your child may benefit from moving to a different program, whether upward or downward, please consult with our coaches before making any decisions. It's essential to consider the physical demands and skill requirements of each program, as they increase with grade level. We appreciate your understanding and cooperation in adhering to our age and grade level policy.
