

Product Data Sheet

Product Name:

Series "HD" Heavy Duty Extruded Aluminum Column Cover
Interior / Exterior

Manufacturer:

Columbia Architectural Products, Inc.
10722 Tucker Street
Beltsville, Maryland 20705
phone: (301) 937-4383
fax: (301) 937-6850
web: www.CapIndustriesInc.com

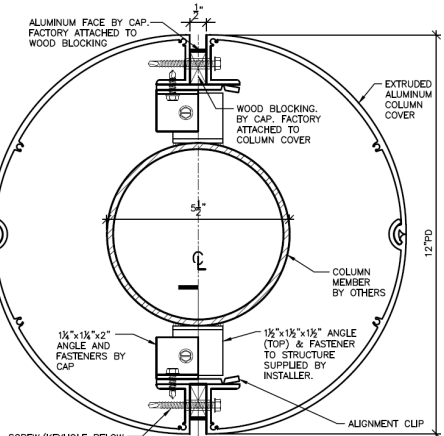

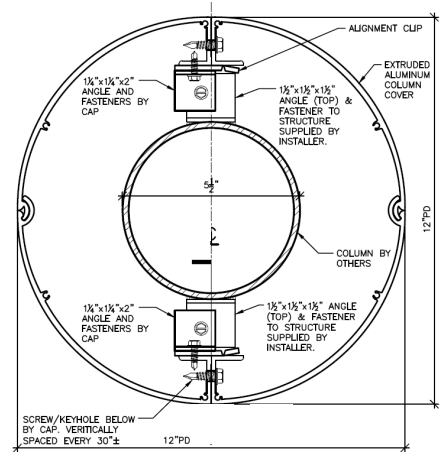

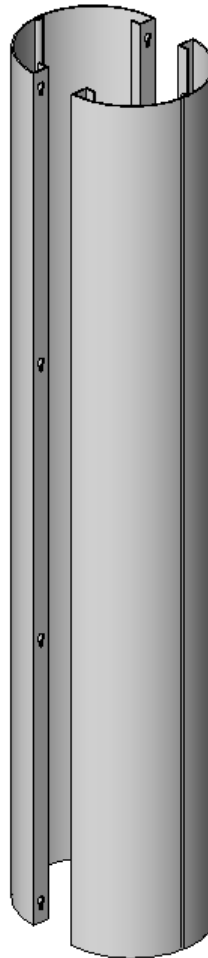

Panel Description:

The CAP Series "HD" Column Cover is available with hairline or 1/2" reveal vertical joint assemblies. 1/8" heavy duty walls of this extruded aluminum 6053 Alloy T5 column cover renders this assembly virtually indestructible.

CAP's Key Slot assembly allows for an easy installation.

These Column Covers are used for both interior and exterior applications for high traffic areas such as Office Buildings, Schools, Airports, Retail Establishments, etc.

This 12" diameter is available in single heights up to 16' tall.
Recessed Top and Base reveals are available from 1" to 6".

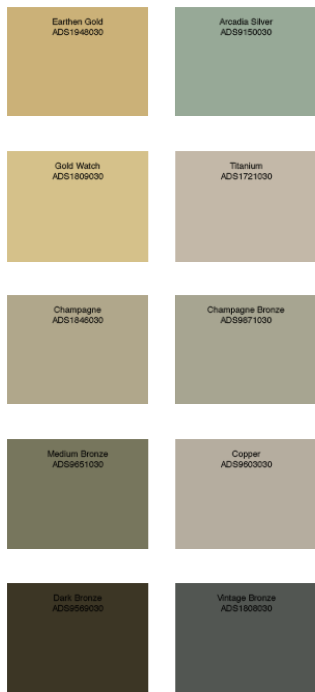

Tight Joint or 1/2" Reveal Options

*Solid Colors

*Mica Colors

*Metallics

* Color Chips are often affected by heat, light, age and internet viewing resulting in a slight difference between the color chip and the actual paint. Samples of the actual Coraflon ADS finishes are available upon request. These colors represent the range of colors available, but custom color matches are also available. Contact one of our helpful staff members at CAP Industries for assistance.
