### Description:

Daily comprehensive multivitamin/mineral formula designed with optimized dosages of highly absorbable and methylated ingredients with a focus on antioxidant, immune function, and brain health.

## Clinical Applications:

- Optimization of dietary intake through daily multivitamin/multimineral support
- Supports healthy methylation and the nervous system function with bioactive B vitamins (1,11)
- Contains the nationally established upper tolerable limit for Vitamin D, providing an optimized dose in contrast to many traditional multivitamins (7)
- Contains higher levels of zinc without exceeding the dosing range to disturb copper balance (8)
- Highly absorbable forms of glycinated minerals which are more gentle on the stomach (9)
- Promotes eye (macular) health with a blend of eye specific antioxidants such as zeaxanthin, lutein, and vitamin A (in both forms of palmitate and beta carotene) (4,5)
- Promotes healthy glucose balance and thyroid function with chromium and selenium (2,12)
- Promotes antioxidant cellular function and brain health with NAC (supporting glutathione production) (3)
- Promotes healthy neurotransmission with bioactive B vitamins and NAC to balance excitatory neurotransmitters (6,10,13)

**Suggested Use:** Ages 4-8, take 1 capsule, ages 9+ take 2 capsules daily with food.

Store in a cool, dry place with the lid tightly closed. Keep out of reach of children.
