The Pain of Living With Chronic Nerve Pain

ReBuilder[®]
Medical Inc.

The Daily Struggle

If you're dealing with nerve pain, you're not alone. Millions of people live with persistent burning, or numbness in their hands and feet. These symptoms can make everyday tasks a challenge.

Why Treatments Fail

Many common treatments—like pain relievers or gabapentinoids—don't address the real issue: damaged or misfiring nerves that need nutrition to heal.

The Search for Relief

Finding real relief from nerve pain can be frustrating. You try treatment after treatment, only to feel like nothing works—leaving you tired, discouraged, and still in pain.

It's time to reclaim your life.

How the ReBuilder Works

1. Improve Circulation

ReBuilder improves circulation, helping tiny blood vessels deliver oxygen and nutrients to damaged nerves.

2. Calm Nerve Signaling

ReBuilder uses a precise, gentle, low-frequency electrical signal to calm irritated and overactive nerves.

3. Improve Nerve Function

These signals travel along damaged nerves, helping quiet abnormal activity and "retrain" them to function normally again.

4. Restore Relief

Regular use improves circulation, supporting your nerves as they heal and relearn how to function properly.

Who Benefits from ReBuilder Treatment?

The ReBuilder is FDA cleared for the symptomatic relief of:

Chronic nerve pain

Those experiencing burning, tingling, or numbness in their feet or hands.

Post-surgical pain

Those dealing with ongoing soreness, stiffness, or sharp discomfort—weeks or months after a procedure.

Post-traumatic pain

Those living with persistent aches, sharp jolts, or tenderness after an injury has healed.

Maintaining/increasing range of motion

Those struggling with tightness, stiffness, or restricted movement.
