

DIRECTIONS

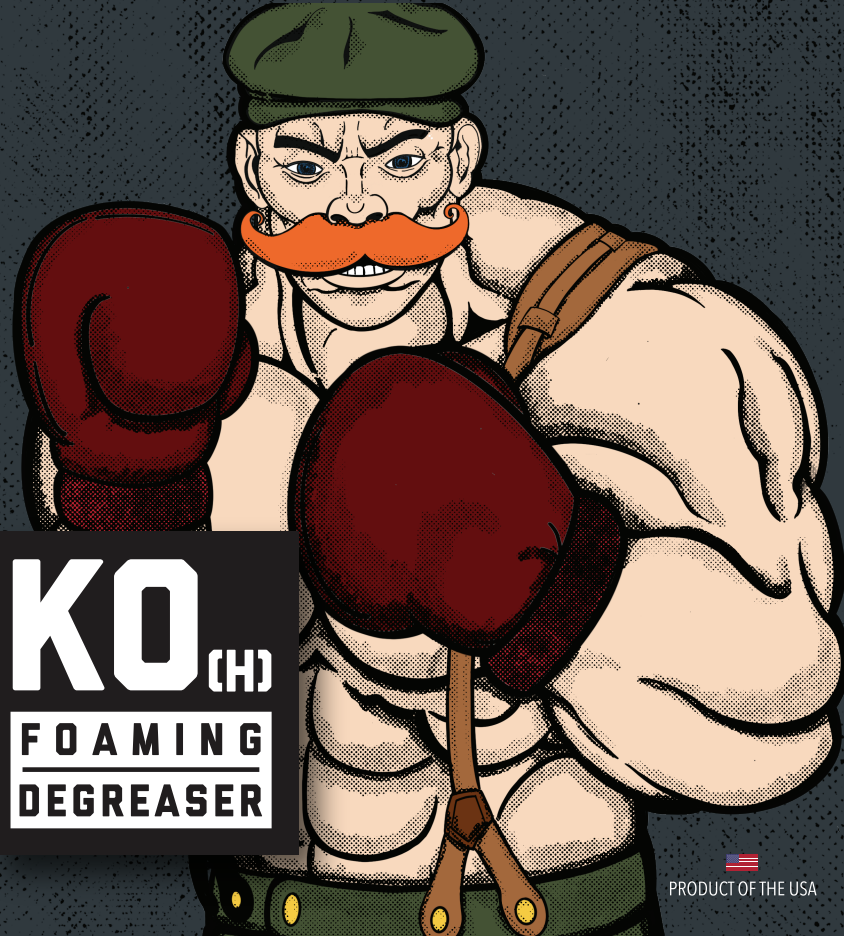

GRILLS: Dilute cleaner with equal parts of water. Temperature of grills should be about 150 to 170 Deg. F. Pour a liberal amount of cleaning solution on grill and spread over surfaces with a cloth. Allow to set for 5-10 minutes. Wipe or scrape grease into drain trough. Thoroughly sponge surface with water to remove all residue. Wipe residue off with a damp cloth until clean.

OVENS: *DO NOT USE ON CONTINUOUS OR SELF CLEANING OVENS.* Preheat oven to NOT OVER 200 degrees Fahrenheit and turn oven off. Turn off current in electric oven or pilot light in gas oven. DO NOT spray on or let spray contact pilot light, electrical connections, switches, light bulbs, heating elements, receptacles or thermostats. Spray may cause electrical short. *ALWAYS WEAR LONG RUBBER GLOVES AND EYE PROTECTION WHEN SPRAYING OR WIPING.* Spray an even coating from top to bottom from a distance of 8-10 inches. After 10 to 20 minutes wipe residue off all surfaces with a damp cloth until clean, followed by a potable water rinse.
