Articulate / Storyline Expert – Training Developer for LMS Delivery
Freelance | Contract | Remote |North American Time Zones Only

Who We Are:

AGPROfessionals is an outcome-focused company, providing a broad spectrum of services to farmers, ranchers, investors, and other stakeholders across the United States. We are a company planning for growth, and we believe a key component to successful growth is to have a robust and engaging training library in which we can both train team members on specific skills and immerse them in our company philosophy and culture.

What We Need:

We are looking for an e-learning developer with Articulate 360 and Storyline experience who can take our existing library of training content, modernize it with animation, branching and quizzes and prepare it for delivery over an LMS. This person will work on a project-by-project basis and will coordinate their efforts with our Vice President of Communications and Strategic Planning as well as other subject matter experts within our organization. We are in the early process of researching and selecting an LMS that will suit our needs now and in the future.

What You'll Do:

- Create a new Articulate training template for use on our LMS
- Utilize existing PowerPoint training topics in our training library as a basis to build out training courses
- Build interactive activities
- Build quizzes
- Create courses that allow the learner to navigate on their own
- Work with the contract supervisor and company subject matter experts to make changes/edits as needed to courses
- Provide us with the original files for courses once completed
- Help us set up a LMS and upload courses

What We Are Looking For:

- Strong knowledge of Articulate 360 products
- Knowledge of publishing on LMS systems
- Ability to create animated graphics and animate within Storyline and PowerPoint
- Ability to integrate voice to courses and to provide scripts (v/o may be supplied by our organization)

How You Will Be Paid:

We will pay on a completed project basis and will ask for a project budget/proposal for each course.
You will provide us with a cost-per-course estimate. Once an LMS platform is identified, course cost should include uploading to LMS and curriculum identification etc.

How to Apply:

- Send your resume and link to samples of your work to: Karen Gerfen Glueck, Vice President of Communications and Strategic Planning at KarenG@agpros.com
