

## **DIRECTIONS FOR USAGE**

### **ANTIBIOTIC ANTI-INFECTIVE**

#### **Commercially Available Vials Containing Powder**

**\*\*Important note – the rubber tops of the vials come off very easy – only take out one vial at a time and leave all others in an upright position stored away from children**

- Items Included
  - Commercially Available Vial (Powder Form)
  - Mixing Cup
  
- Directions for Use
  - Remove rubber stopper out of prescribed number of vials and empty contents into the mixing up
  - Using a sterile cotton swab stir the contents of the mixing container until mixed well
  - Apply as directed
  - Wash mixing container and store for next treatment

A customer service representative is available and dedicated to serve you. Please feel free to contact us with any questions. Thank you for your patronage! As always, the FDA does not review any compounded medication for safety or efficacy. This is the primary reason that we encourage any patient or healthcare provider looking to compounding as a treatment option to always engage a Compounding Pharmacy of which Your Health Pharmacy is one.
