**SPECIAL RECOGNITION RIBBONS for First, Second and Third places**

- Butte County is all about family and Generational Traditions is a department especially designed to give those families that are handing down family traditions and skills a place to shine! This department requires two family members at least one generation apart to work together on a single project, or separately on complimentary but coordinated projects. These projects can consist of an upcycled/repaired/restored project or something completely new built from the “ground up”. Materials are your choice, based on the project you choose. Family members consist of immediate family. Any combination will work! Just remember

that they need to be separated by at least one generation. Examples of projects include: rebuilding an engine together, restoring two like items of furniture, or building something new together. Butte County is rich with family tradition, let's showcase it!!

## RULES:

1. A minimum of two family members, at least one generation, 15 years apart.
2. Family members include immediate family (by blood or marriage), i.e. parents, step-parents, aunts, uncles, grandparents and grandchildren.
3. **Every project must include** a display consisting of a minimum of 6 (six) pictures showing family members working on the project during the process of construction/repair. All family members first names and their relationship to each other must be listed on the display.
4. If the project is an upcycle/repair/restore, please describe what has been upcycled/repared/restored and the materials used.
5. A single upcycle/repair/restore project could be a specific part of any kind of engine, bicycle, household mechanicals, furniture, etc. One item, two different areas or addresses two different parts of the same item
6. Original build, separate but complimentary projects are two items built separately by the family members, using the exact same materials. The finished projects should coordinate and compliment each other. A list of materials used must be on the display
7. No perishable items
8. ***All projects must be able to be displayed on the Fair Grounds during the Fair***
9. For extra-large projects (i.e. cars, large engines or machinery) please enter as early as possible to reserve space on the Fairgrounds. Please call the Stills Department to make arrangements for delivery/display
10. **Reasonable precautions will be taken, but *Butte County Fair Management is not responsible for any theft/damage to the project while on display***
