We telling your story.

SRP 

A themed playground is like an open book, where every structure and element tells a unique story.

A playground is a canvas for storytelling. As children climb, swing, and slide, they're not just having fun — they're living out stories of bravery, discovery, and friendship. As experts in creating one-of-a-kind playgrounds, our team will work with you to tell the story of your community through a themed playground.

PLAY without barriers.

Providing inclusive play opportunities for a community is essential to ensure that every child of every ability can experience the joys of play and social interaction. Inclusive playgrounds promote empathy, break down barriers, and foster a sense of belonging among children of diverse abilities.

Inclusive Play Considerations

1

Access Points

Provide multiple opportunities for individuals to independently access play and engage in intuitive play patterns.

2

Integration

Include play events that children of all abilities can access throughout the play environment in order to encourage inclusion among all children.

3

Variety

Offer a balance of play activities that support the physical, social-emotional, sensory, cognitive, and communicative needs of all children.

Tower Series

Featured
products

The Tower Series offers an exhilarating experience that allows children to ascend to impressive heights while enjoying thrilling slides, challenging climbs, and panoramic views. These structures create an unforgettable environment for children to explore and conquer. These structures are designed fully enclosed with panels or barriers and meet ASTM standards for playground equipment.

Recycled Series

Featured
products

Our recycled playground line, Grounds For Play®, has the natural look of wood but requires minimal maintenance. The posts and decks are made from reclaimed post-consumer plastic products like milk jugs. What's more, our recycled line focuses on early childhood development with play themes around dramatic play, nature play, art play, and more. You can also get all the benefits of this line through our themed recycled series.

We Meet or Exceed Industry Standards

In our effort to provide safer, quality play products for children, our products meet or exceed the standards set forth by the below organizations. Additionally, we follow our own strict in-house standards and guidelines.

International Play Equipment Manufacturers Association™

In the interest of playground safety, the International Play Equipment Manufacturers Association (IPEMA™) provides a third-party certification service whereby a designated independent laboratory, TÜV SÜD America Inc., (TÜV), validates an equipment manufacturer's certification of conformance to the standards below.

- ASTM F1487-11, excluding sections 7.1.1, 10 and 12.6.1: Standard Consumer Safety Performance Specification for Playground Equipment for Public Use
- CAN/CSA-Z614-14, excluding clauses 9.8, 10, and 11: Children's Playspaces and Equipment

A list of current validated products may be viewed on their website at www.ipema.org. SRP is a member of this organization.

American Society for Testing and Materials

The American Society for Testing and Materials (ASTM) is an independent and world renowned developer of technical standards utilized in testing a multitude of products. ASTM developed F1487 Standard Consumer Safety Performance Specifications for Playground Equipment for Public Use. The current standard is F1487-11, published in 2011.

U.S. Consumer Product Safety Commission

The U.S. Consumer Product Safety Commission (CPSC) presents safety guidelines through the publication of their Public Playground Safety Handbook. This handbook promotes greater safety awareness among those who purchase, install, and maintain public playground equipment. The handbook can be viewed on the CPSC's website, cpsc.gov.

United States Access Board

The U.S. Access Board is a federal agency that promotes equality for people with disabilities. They've developed guidelines and standards for built environments, such as playgrounds.

ISO 9001 and ISO 14001

ISO industry certification processes are issued by International Organization for Standardization. ISO 9001 is used to measure manufacturing standards and to certify company compliance with quality management systems covering design, development, production, installation, inspection, and testing. ISO 4001, also known as the "Green Certification," specifies the requirements of an organization having an environmental management system (EMS). SRP's steel playground line is manufactured in an ISO 9001 and ISO 14001 certified facility.

PCI 4000

Certification by the Powder Coating Institute recognizes competency and processes in place to consistently produce high-quality powder coated products. PCI certification is the result of an extensive and rigorous audit process and SRP's steel playground manufacturing facility has this certification.

In-House Standards

At Superior, we only use quality playground materials. Our playgrounds are proudly made in the USA and are built to last.

To ensure the safest play for your children, we offer:

- Quality control inspection on all parts and shipments
- All products must pass inspection in our IPEMA Certified In-House Testing Facility
- In-house production of most products
- All products meet or exceed CPSC, ASTM, and ADA Safety Guidelines
- On-staff CPSI certified employees
- Local field factory trained installation technicians
- Direct connect component attachment system
- Products constructed from Allied's heavy-wall galvanized steel tubing, which is protected by Allied's patented Flo-Coat® process that uses triple-coat corrosion protection (zinc, conversion coating, and clear topcoat) to provide a smooth, shiny appearance that is unmatched in strength and durability

We Use Quality Playground Materials

Our Leading Warranty

Our warranty guarantees years of unlimited fun. **View our full warranty by visiting us online at srplayground.com/warranty.**

Superior Recreational Products (SRP) warrants that its product will be free from defects in materials and workmanship as well as maintain structural integrity for the periods listed below from the date of invoice and once SRP has been paid in full. This warranty is in effect only if the product has been assembled and installed strictly in accordance with the setup instructions provided by SRP, good construction practices, and has been subjected only to normal use and exposure.

- Lifetime* Warranty on playground steel and recycled posts, all stainless steel hardware, c-line fittings, and aluminum post caps
 - 20-Year Limited Warranty on steel Shade structures
 - 15-Year Limited Warranty on playground pipes, rungs, loops and rails, roto-molded plastics, HDPE plastic sheets, punched steel decks, and recycled decks
- 10-Year Limited Warranty on shade fabric and Ascend Rope Climber cable breakage
 - 5-Year Limited Warranty on powder coat and climber nets and cables
 - 3-Year Limited Warranty on electronic play and Ascend Rope Climber flexible rubber belting
 - 1-Year Limited warranty on moving parts, Shade cable, and materials not covered above

Limited Warranty: Structural Steel

SRP offers a *Lifetime Limited Warranty on structural steel frames against failure due to rust-through corrosion under normal environmental conditions. Should the parts need to be replaced under the warranty, SRP will manufacture and ship new replacement parts at no charge for the first ten years, thereafter pro-rated at 50% for the second ten years and 25% from there on. Workmanship is warranted for a period of five years. This steel warranty shall be void if damage to the steel is caused by the installer or from physical damage, damage by salt spray or sprinkler systems, contact with chemicals, chlorine, pollution, misuse, vandalism, or any act of God.

Limited Warranty: Powder Coat

Superior Recreational Products offers a 5-year Limited Warranty for standard powder coating and a 7-Year Limited Warranty for Corrosion Defense Package powder coating to the original purchaser. This Limited Warranty is for factory applied finish only. Damage occurring from shipping, erection, vandalism, accidents, or field modification is not covered in this limited warranty and will require field touch-up immediately and periodically thereafter. The owner must report any defect in powder coat at the time the installation is completed. Not covered by this Limited Warranty are acute angles, welds, and end plates.

- The Limited Warranty for powder coating provides the following after a 5-year exposure period when applied according to the recommendations listed on the product’s technical data sheet and appropriate surface preparation has been utilized.
- The coatings shall retain their original color with a ΔE of <7.5 units for high chroma colors (yellows, reds, oranges, etc.) and a ΔE of<5.0 units for low chroma colors, when tested in accordance with ASTM D 2244.
 - The coating shall retain a minimum of 50% of its original gloss level after washing, when tested in accordance with ASTM D 523.
 - The coating shall exhibit chalking no worse than numerical rating of 6, when evaluated in accordance with ASTM D 659-80.

Stainless Steel Series (Powered by Playdale Playgrounds)

Playdale Playgrounds warrants its products to the original customer to be free from structural failure due to defect in materials or workmanship during normal use and installation in accordance with the published specifications.
