

Welcome aboard the website creative team. Your first client is Maple Leaf Landscaping. You will be building this website using Websites 360. You have the creative freedom to make this site look however you wish given the content, assets and brand provided. If you have questions along the way, just ask. This is your time to learn the tool and ask as many questions as you need.

Included: sitemap, content, images and brief

CONTENT

Brief

Maple Leaf Landscaping has been serving the Charlotte, NC area since 1985. During that time we've prided ourselves on quality service with a helpful and positive attitude. Our clients are usually homeowners that want to enjoy the time they spend outside but don't have the time or skills to create their dream aesthetic. We want our website to showcase our past work, highlight what landscaping services we offer, and make it easy for a homeowner to connect with us to get an estimate.

Services

Landscaping Services

- Water Features
 - Nothing helps you relax like the sounds of a waterfall in your own backyard. Our water features, which range from small fountains to full fish ponds, bring a sense of rejuvenation and contemplation to any space.
- Decks and Walkways
 - If you host regularly or just enjoy being outside during the day, a new deck or walkway is a must. No one likes to stand on a cracked patio slab or loose rock pavers so let us help you wow your family and guests.
- Retainer Walls
 - Sloped yards can be tricky. They are prone to runoff and are difficult to garden on. Retainer walls not only help keep soil where it should be but also create a dynamic and geometric feeling to your yard.
- Fire pits and Fireplaces
 - You don't have to hike several miles into the woods to enjoy s'mores around a fire. Our custom fire pits are perfect for gatherings on cold nights and range in aesthetics from cozy and rustic to elaborate and ornate.

Portfolio

- Should highlight our work to help give clients an idea of what we can do with their yard.

About

Joe Maple has always had an eye for landscaping. Whether it was designing his own backyard landscape or giving advice to friends, he has a gift for turning a flat or worn out yard into a work of art. That's why he founded Maple Leaf Landscaping over 35 years ago.

Our mantra at Maple Leaf is that a backyard should be a place of relaxation and inspiration, not a source of stress and embarrassment. That's why, from our initial

consultation all the way through the final paver, we work alongside our customers to give them an oasis in their own home.
