

# Active Shooter Protocol: RUN, HIDE, FIGHT

Be prepared for an active shooter event by following these strategies:

## Run

If safe to do so, quickly run away from the danger to a safe location.

## Hide

If you can't run, find a secure hiding place out of the shooter's view. Lock doors, turn off lights, and stay quiet.

## Fight

If confronted by the shooter, be prepared to incapacitate them using any means necessary, such as throwing objects and using improvised weapons.
