Dear Client:

You have been ordered by the court to perform community service/manual labor. Please call our office within 3 days to schedule an appointment for an interview. Our office hours are 9am to 5pm Monday through Friday.

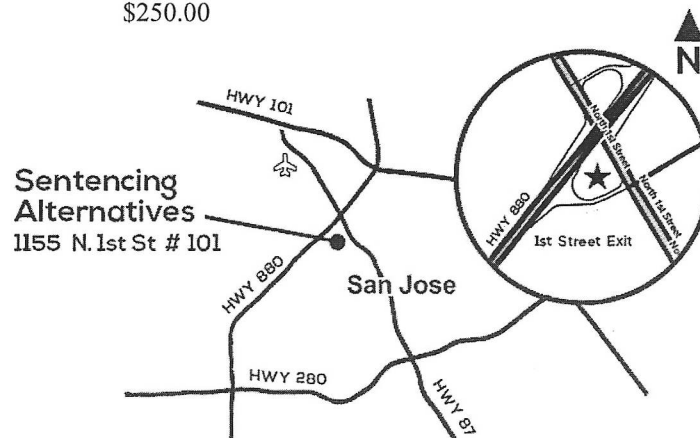

Sentencing Alternatives Program, Inc. is a non-profit organization that provides courts with the means of offering adult and juvenile offenders the opportunity to perform unpaid community service work/manual labor as an alternative to a fine and/or jail sentence.

During the registration process one of our caseworkers will take into consideration your skills, interests, employment status and available transportation. You will then be placed at an appropriate community service agency. The caseworker will monitor your work progress and report the completion of your work assignment to the court or probation department.

It is our desire that your participation in the program be beneficial to you, as well as the community. Performing community service/manual labor offers individuals the chance to learn new job skills, meet new people and become involved in the community. Many clients have enjoyed their community service/manual labor assignments and continue to contribute their time to these organizations, well after the completion of their assignment.

## Our enrollment fees are:
