ABOUT SKYPLEX MANAGEMENT

At Skyplex Management, we specialize in helping business owners reclaim their most valuable asset: time. We understand that entrepreneurs wear countless hats — from sales to strategy to operations — and bookkeeping often ends up at the bottom of a very long to-do list. That's where we come in. We take the books off your plate, permanently, so you can focus on what you love and what drives your business forward.

We provide fully managed bookkeeping solutions tailored to the unique needs of small and growing businesses. From day one, our process is designed to remove stress and add clarity. Our clients no longer worry about missing receipts, late reconciliations, or tax surprises. Instead, they receive clean, consistent monthly financials and proactive insights from a team who genuinely understands their business.

Skyplex Management is built on values that mirror those of the clients we serve: reliability, accountability, and long-term relationships. We're not a faceless software or a one-size-fits-all firm. Every client is paired with a dedicated bookkeeping expert who becomes an extension of their internal team. We treat your business like it's our own, because that's what real partnership looks like.

As your business scales, so do your financial needs. Our team ensures your systems grow with you. Whether you're managing payroll, preparing for funding, or simply want to know your numbers without the spreadsheet headaches, we create workflows that are efficient, accurate, and designed to evolve as you do.

If you're tired of staying up late to balance the books, it's time for a change. Skyplex Management exists to give overwhelmed business owners back their nights, weekends, and peace of mind. You've already taken the first step by downloading this guide — now let's take the next step together.

THE BOOKKEEPING OFFLOAD KIT

What to Hand Off, How to Do It, and Why It's Time

1. Why You're Doing Too Much (and Paying the Price)

Most business owners start off doing their own books — not because they want to, but because they think they have to. You may have spreadsheets duct-taped together, log in to QuickBooks once a month (or quarter), or rely on a relative or part-time assistant to "keep it close enough."

Here's the truth: DIY bookkeeping is costing you real money. Every hour you spend in the books is time you're not growing your business. And every miscategorized expense, missing document, or late payment eats away at your profits — and your peace of mind.

Our clients come to us buried in receipts, overdue reconciliations, and unanswered tax questions. They leave with clarity, clean reports, and the headspace to lead again.

2. What You Can (and Should) Offload

Let's get specific. Here's what a professional bookkeeping partner like Skyplex Management takes off your plate:

- **Transaction categorization** (done to IRS and GAAP standards)
- **Monthly bank and credit card reconciliations**
- **Accounts payable and receivable tracking**
- **Sales tax calculation and filing**
- **Clean monthly financial reports** (Profit & Loss, Balance Sheet, and Cash Flow)
- **General ledger clean-up**
- **Coordination with your CPA or tax advisor**

We don't just "do the books." We make sure your financial foundation is built to scale.

3. How the Offload Process Works

You don't have to clean up before you call us. We're pros at diving into messy files, catching up months (or years) of neglected books, and building streamlined processes that actually work.

Here's what happens once you engage:

Step 1: Initial Consultation

We learn about your business, your systems, and your frustrations.

Step 2: Bookkeeping Assessment

We review your current books and flag what needs to be fixed or improved.

Step 3: Custom Offload Plan

You receive a clear breakdown of what we'll handle, how often, and how we'll keep you informed.

Step 4: Onboarding & Migration

We take over your bookkeeping systems and give you one point of contact.

Step 5: Monthly Rhythm

Expect clean reports, timely communication, and a partner who's got your back.

4. When It's Time to Let Go

Here are 7 signs you're overdue for a bookkeeping offload:

1. You spend more than 2 hours a week on your books.
2. Your reports don't make sense or match your bank balances.
3. You're behind on reconciliations or tax filings.
4. You aren't confident what your business actually earns each month.
5. Your CPA charges extra to "fix" your books before taxes.
6. You're growing and adding team members or locations.

7. You avoid bookkeeping — and it shows.

If any of these apply, it's time. You don't have to do this alone anymore.

5. What Success Looks Like

Our clients aren't just saving time — they're making better decisions, faster. They're no longer surprised at tax time. They know their profit margins. They sleep better.

And they tell us the same thing:

"I wish I did this sooner."

Let us take the numbers off your plate so you can get back to leading, building, and enjoying your business.

? Self-Assessment Questions:

1. I spend more than 2 hours a week on bookkeeping tasks.
2. I'm not confident that my books are accurate or up to date.
3. I have overdue reconciliations or haven't closed a month recently.
4. I avoid checking my financial reports because they're confusing or inconsistent.
5. My CPA or tax preparer charges extra to clean up my books.
6. I don't review Profit & Loss or Balance Sheet reports monthly.
7. My books are not ready for funding, loans, or audits.
8. I manage receipts manually (or not at all).
9. My accounts payable and receivable are tracked in spreadsheets.
10. I've made financial decisions without real-time data in the last 90 days.

✓ Add Up Your Score

- **16–20 points: CRITICAL**
Your bookkeeping system is likely holding back your business and costing you real time and money. It's time to offload — immediately.
- **10–15 points: WARNING SIGNS**
Some areas are under control, but gaps remain. You're vulnerable to costly errors, tax issues, and missed opportunities.
- **0–9 points: CAUTION**
You may be managing, but at what cost? Delegating your books could unlock hours of your time — and a much smoother business.
