Pathology Laboratory Services

As part of the medical care you receive at this Practice, your healthcare provider may order pathology laboratory services for processing, testing, and diagnosis. The Practice frequently works with:

MediPath Laboratory

Preferred clinical pathology laboratory used by many TopLine MD Alliance providers.

MediPath may process certain specimens or biopsies or perform laboratory testing in connection with your care. Depending on your insurance coverage and benefits, you may receive a separate bill directly from **MEDIPATH** for these services.

Important Information

- Laboratory services are billed separately from your office visit.
- Coverage and patient responsibility for laboratory services vary by insurance plan.
- If you have questions regarding billing, insurance participation, or payment options, please contact MediPath directly at:
