HOW TO TAKE A TRADITIONAL & IOS IMPRESSION

WHAT DATA IS CRITICAL TO SEND TO THE LAB

TRADITIONAL IMPRESSION

1 PREPARE

- Remove temporary and clean preparations.
- Retract tissue as needed.
- Dry field.

2 SELECT TRAY

- Choose appropriate stock/custom tray.
- Ensure proper border molding.

3 MATERIAL SELECTION

- Use appropriate impression material for the case.
- Follow manufacturer's instructions.

4 MAKE THE IMPRESSION

- Load tray and seat fully in one motion.
- Hold steady until set.
- Remove with a quick, decisive motion.

5 INSPECT IMPRESSION

- Verify full detail of margins, preparations and anatomy.
- Check for voids, pulls or distortion.
- Pour promptly.

6 VERIFY & SEND

- Verify opposing bite registration.
- Label clearly and include all critical information.
- Ship to the lab promptly.

IOS IMPRESSION

1 PREPARE

- Remove temporary and clean preparations.
- Retract tissue and isolate as needed.

2 START SCAN

- Calibrate scanner if required.
- Begin with occlusal surfaces.

3 SCAN PREPARATIONS

- Capture all preparation margins clearly.
- Keep scanner steady and focused.

4 SCAN OPPOSING ARCH

- Capture full opposing arch.
- Include soft tissue and anatomy.

5 SCAN BITE

- Record centric occlusion.
- For full-arch cases, take both left and right buccal bites.

6 VERIFY & SUBMIT

- Review all data for completeness.
- Check margins, contacts, and occlusion.
- Submit to the lab.

CRITICAL DATA TO SEND (BOTH METHODS)

OCCLUSAL RECORD

Full-arch bite registration.

SHADE INFORMATION

Shade tab photo with natural light preferred.

PHOTOS

Pre-op, preparation(s), opposing arch, smile.

TOOTH # / QUADRANT

Clearly identify all cases.

SPECIAL INSTRUCTIONS

Contacts, emergence, pontic deswgh. etc.

RESTORATION DETAILS

Material, margin location, design preferences.

IMPLANT INFORMATION

Implant system, platform, scan body/analog used.

BITE INFORMATION

Centric relation or centric occlusion.

PATIENT INFORMATION

Name, DOB, doctor, date, RX.

TIPS FOR SUCCESS

- ✓ Keep preparations and accessories clean and dry.
- ✓ Ensure retraction without overextension.
- ✓ Capture complete, unbroken margins.
- ✓ Double-check all data before sending.
- ✓ Accurate records = fewer remakes.

SEND WITH CONFIDENCE

Your accuracy is our foundation.
Your details help us deliver exceptional results.
