Aligned with one of our key mission pillars, SDP is dedicated to the education of young professionals in the science of decision-making. We are excited to extend an invitation to Ph.D. students and young researchers in the field of decision analysis (DA) and adjacent disciplines to participate in the Young Researcher's Poster Session. This session offers a unique opportunity to showcase your research, engage in multidisciplinary collaborative discussions, and address unsolved issues in the realm of Decision Science theory and applications.
